TELEPHONE FAIRFIELD 1329-3

This catalogue includes only a **partial number** of the many species and varieties of alpine rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

**A CAREFUL PERUSAL OF OUR CATALOGUE WILL
ENABLE YOU TO MAKE A SELECTION OF PLANTS
WHICH WILL PRODUCE A PROFUSION OF BLOOM
AT CERTAIN SEASONS, OR CONTINUOUS BLOOM.**

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

**WE HAVE A TRAINED GROUP OF MEN, WHO ARE
THOROUGHLY EXPERIENCED IN THE CONSTRUC-
TION OF ROCK GARDENS, AND THE BUILDING OF
PLANTED WALLS, POOLS, AND JAPANESE GARDENS.**

**ESTIMATES GIVEN ON TREE MOVING
AND TREE SURGERY BY EXPERTS.
ALL TYPES OF LANDSCAPE WORK.**

**COMPLETE SOIL TESTS SCIENTIFICALLY MADE.
\$1.25 each; 10 for \$10.00.**

Advice freely given on these subjects.

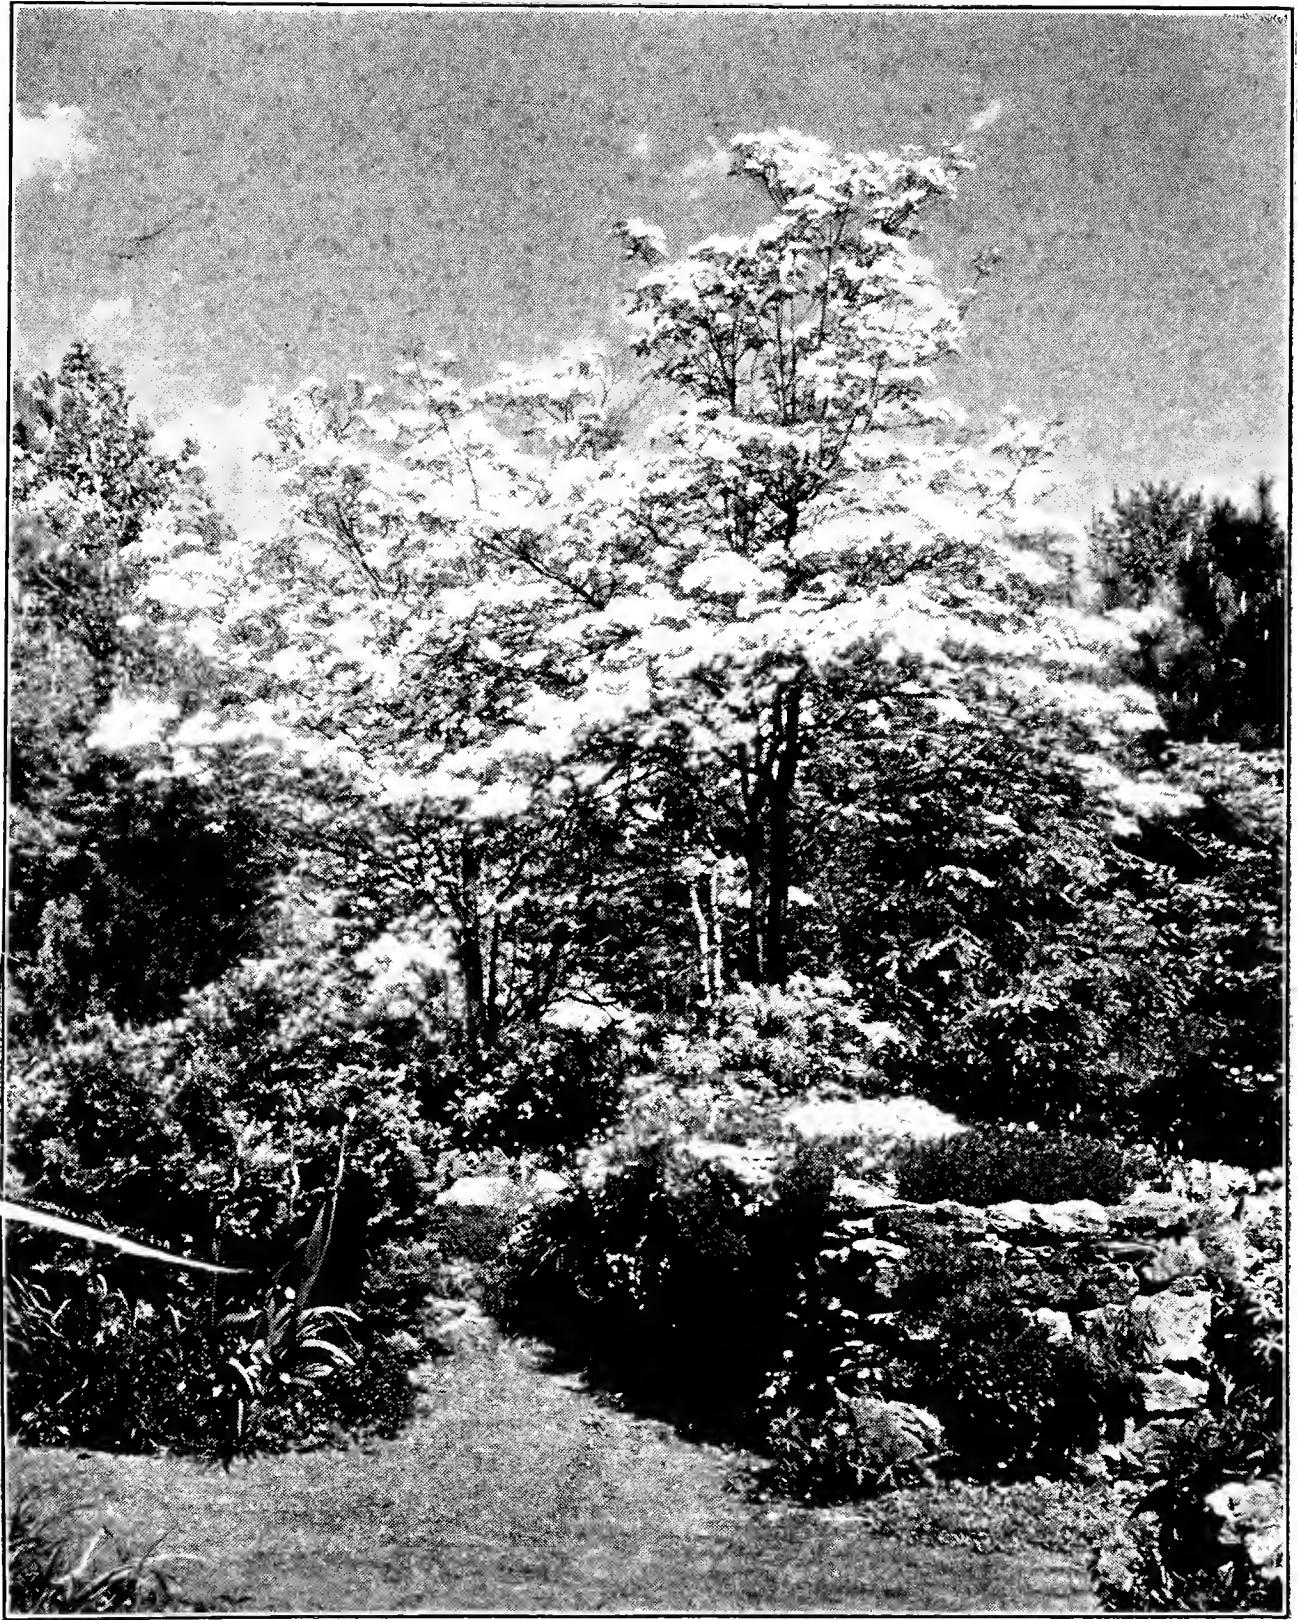

TERMS OF SALE

Sufficient money must be added to order to cover cost of postage. Our terms are strictly cash, but we will ship C.O.D. provided 25% of the amount of the order is remitted.

Plants leave our nurseries in fine, healthy condition. All plants are inspected and carefully packed according to the best methods to insure safe transportation.

We cannot be liable for cases of failure due to transportation or other causes.

No complaints will be considered that are not made within ten days after receipt of shipment.

Cronamere

GARDEN CLUBS

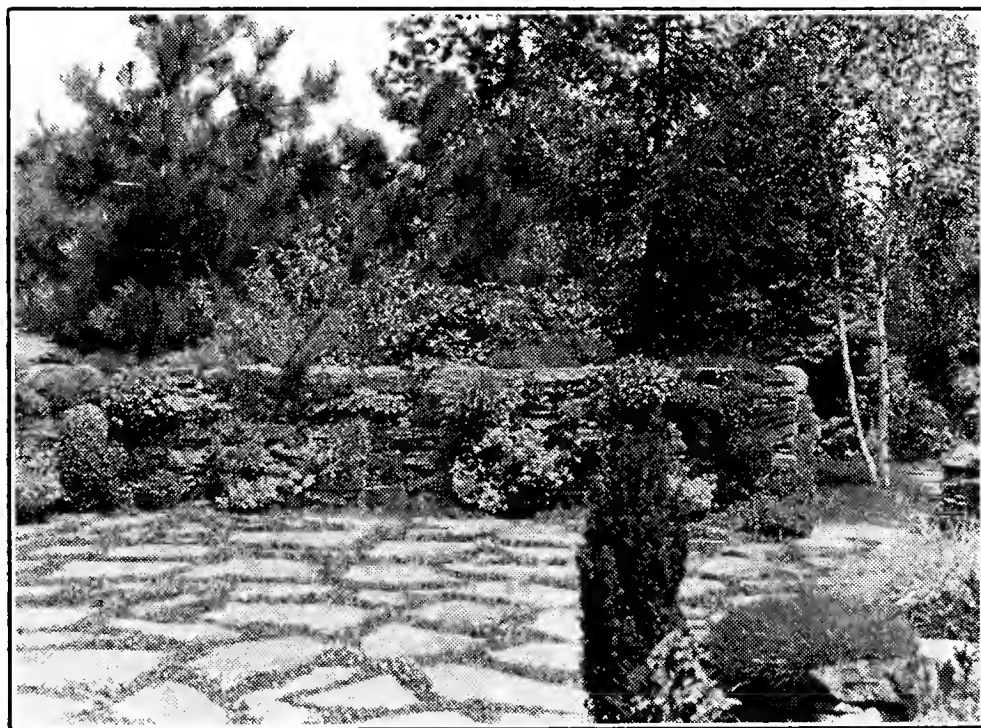

Garden Clubs are cordially invited to visit our rock gardens and view our Japanese Garden. Kindly have your Garden Club reserve a day for their visit at least a week in advance in order that our staff may be at your service.

PLANTING AND CULTURE

All rock plants require **firm planting**, **good drainage**, and **stone chips** over the surface of the soil and under the foliage. The rare and diminutive types of alpine should have a section to themselves to prevent the encroachment of plants of a more robust or rampant nature. Most alpine should be cut back after the blooming period is past which will ensure a second bloom in many species. While not absolutely necessary, a light covering of **salt hay** should be placed over the rock garden in winter in climates where cold frosty winds prevail and there is no protecting blanket of snow. In spring a top dressing of **sand and leaf soil** is very beneficial, adding **lime** for plants which require it.

Planted Wall at Cronamere

PAVING PLANTS FOR SUN AND SHADE

Acaenas	Herniaria glabra
Antennarias	Houstonias
Anthyllis	Hypericum repens
Armerias	Lotus corniculatus
Arabis procurrens	Mazus reptans
Arenarias	Muchlenbeckia
Bellis minutum	Nierembergia
Dianthus deltoides	Phlox amoena
Drabas	Phlox cowardi
Erinus	Potentilla repens
Erythraea	Veronicas

SUGGESTED LIST FOR CARRYING ON CONTINUOUS BLOOM IN THE ROCK GARDEN

Abelia grandiflora	Inula Royleana
Achillea tomentosa	Lamiums
Alyssum montanum	Lavandulas
Alyssum rostratum	Liatris
Androsace lanuginosa	Libertias
Androsace lanuginosa leichtlinii	Linums
Anemone hupehensis	Lithospermum prostratum Heavenly Blue
Antirrhinum glareosum	Lobelia cardinalis
Antirrhinum glutinosum	Lysimachia Nummularia
Armerias	Malvastrum coccineum
Asters	Meriolix serrulata
Astilbes	Myosotis alpestris rosea
Azalea macrantha	Nierembergia rivularis
Calamintha alpina	Oenotheras
Calandrinia umbellata	Oxalis
Callunas	Papaver
Campanulas	Pentstemons
Catananche caerulea	Phlox
Chrysanthemums	Platycodons
Chrysopsis villosa	Polemoniums
Cistus	Prunellas
Clematis	Roses
Convolvulus	Schizostylis Mrs. Hegerty
Coreopsis verticillata	Sedums
Corydalis	Sidalceas
Crepis occidentalis	Sideranthus spinulosus
Cyclamen	Silene maritima
Delphiniums	Silene schafta
Dianthus	Solidagos
Dicentra	Sparaxis pulcherrima
Draba sibirica	Spirea bullata
Ericas	Statice
Erigerons	Stokesia cyanea
Erodiums	Tanacetum sp. Balkans
Galpinsia lavandulaefolia	Tetraneuris stenophylla
Genistas	Teucrium Chamaedrys
Gentians	Thalictrum dipterocarpum
Geraniums	Thymus
Gilia longiflora	Tradescantias
Grindelia rubricaulis	Tunica saxifraga
Helleborus	Tunica saxifraga fl. pl.
Hemerocallis minor	Ulex europaeus
Heucheras	Verbenas
Hypericums	Violas
Hypoxis hirsuta	Zauschnerias

Please note our list of North American (N. A.) plants.

ROCK AND ALPINE PLANTS

ABELIA grandiflora. Lovely evergreen shrub. Pale pink flowers. All summer and autumn.	1.00
ACAENA	
glauca. Good carpenter for spring bulbs. Finely cut blue foliage. Sun or shade.25
inermis. Creeper to plant among bulbs or paving. Charming ferny foliage.35
pinnatifida. Paving plant or ground cover. Rare. Chile.35
Sanguisorbae. Very effective. Creeper with ferny foliage.30
ACANTHOLIMON venustum. A choice and lovely plant. Sharply pointed blue grey leaves and rose pink flowers. 6 in. Sandy soil and sun. Spring. <i>New.</i>75

*Aethionema*

ACANTHOPHYLLUM spinosum. Cushions of spiny foliage covered with lacy white flowers.30
ACHILLEA	
aurea. Low mounds of emerald feathery leafage. Umbels of rich golden flowers. 4 in. Spring. N. A.25
nana. Soft downy foliage. White flowers. 6 in. Spring.25
tomentosa. Mats of ferny foliage. Golden flowers. Long season.25
ACTINEA herbacea. Bright golden flowers on 8 in. stems. Stony soil with lime. Sun. Summer. N. A. <i>New.</i>40
ADENOPHORA stylosa. Spikes of deep blue bells. 18 in. Asia.35
AEGOPODIUM Podagraria variegatum. Variegated foliage. Umbels of pretty white flowers. June. N. A.25
AETHIONEMA—Sandy loam and sun.	
armenum. Shrublet with blue-grey prostrate foliage and a profusion of soft pink flowers. Spring. 6 in.40

	each
coridifolium. Shrubby rock plant. Rosy pink flowers. Spring. Mt. Lebanon.50
pulchellum. Prostrate form branching freely with clear rose flowers.35
schistosum. Masses of prostrate grey-green foliage. Large pink flowers. Choice and rare.	1.00
warley rose. Large rosy pink blooms. A fine variety. Spring.75
warley ruber. One of the best. Shrublet covered with deep rose flowers in spring. Rare. 6 in. <i>New.</i>	1.00

AGAPANTHUS

Mooreanus minor. A dwarf form of the African Blue Lily. Handsome umbels of rich blue or white flowers in summer. Hardy.50
intermedia. Slightly larger form of the above. <i>New.</i>75

AGOSERIS glauca. Pretty clusters of bluish green leaves bearing handsome bright golden flowers, from 1 to 2 in. across. All summer-autumn. <i>New.</i>35
--	-----

*Alyssum Montanum***AJUGA**

reptans. Creeper. Masses of bright green foliage. Spikes of blue flowers. Spring.25
reptans multicolor. Creeper. Bronzy green foliage, a pleasing contrast to the short spikes of brilliant blue flowers.25
reptans variegata. Rosettes of palest green and white. Short spikes of light blue flowers. Very effective.25
tottenhami. Tufts of bronzy foliage. Soft blue flowering spikes.30

Write us your Rock Garden problems.

Planted Wall at Cronamere

ALLIUM—*The alliums add much charm to the R. G. in summer. They all require sandy soil and sun.*

Cronamere seedling. Large umbels of charming white flowers. 12 in. Summer. *New.*35

Ostrowskianum. Dwarf species. Glowing wine colored flowers. Spring. Turkestan. *New.*35

Schoenoprasum. (*Chives*) Umbels of lavender flowers. 12 in. Summer. N. A.35

tanguticum. Large heads of pale pink flowers. 12 in. Late summer. .35

ALPINE DAISY. A charming small daisy from the Rocky Mts. Spring. N. A.30

ALYSSUM—*Sandy loam and sun.*

argenteum. Umbels of golden blossoms on 14 in. stems. Spring.25

montanum. Attractive mats of silvery grey foliage. Sweet-scented golden flowers. 5 in. A beautiful rock plant. Long season of bloom. June. **See illustration.**40

repens. A good form. Trailing mats of grey foliage and large golden flowers. Spring. Europe.35

rostratum. Effective plant for large rocks or walls. Yellow flowers. Summer and autumn.25

saxatile citrinum. Grey foliage and showy masses of pale yellow flowers. 6 in. Spring.35

saxatile compactum. Abundant yellow flowers on 9 in. stems.25

serpyllifolium. Prostrate growth. Grey foliage and pretty yellow flowers.30

AMORPHA canescens. Procumbent stems with silvery pinnate foliage. Terminal sprays of violet blue flowers. Fine color. *New.*60

ANACYCLUS depressus. *New.* Green ferny foliage. Rose tinted white flowers. 6 in. Captivating little alpine. *New.*50

ANCHUSA myosotidiflora. In effect a large Forget-me-not. Sprays of sky blue flowers. Caucasus.25

ANDROSACE (Rock Jasmine). *These beautiful alpines should be grown in every rock garden. They require good drainage and a soil mixture of sand, peat and loam. Sun or partial shade. Spring.*

carnea laggeri. Tuffets of dark green foliage. Umbels of bright pink flowers on 3 in. stems. Spring.60

Chumbyi. A lovely hybrid of *A. primuloides* x *A. villosa* forming compact tufts of downy rosettes. Umbels of rosy flowers. 2 in. .. .75

foliosa. Umbels of flesh colored blossoms with yellow throats. Rare and choice. *New.*75

lanuginosa. Trailing silvery stems terminating in heads of soft rose flowers. Summer. Very lovely.50

lanuginosa leichtlinii. Trailing silvery foliage. Heads of pretty white flowers with crimson eye. Long blooming period. Himalayas.40

primuloides. Rosettes of grey velvety foliage and soft lavender blossoms. True form. Himalayas.35

sarmentosa. Grey-green rosettes. Flowering heads of pink on 4 in. stems. A treasure. Himalayas.40

sarmentosa Watkinsii. Heads of rosy pink flowers with darker eye. 4 in. Spring. Rare and fine.50

Vitaliana (Douglasia Vitaliana). Silvery grey cushions. Stemless fragrant golden flowers.40

ANEMONE

apennina. Exquisite blossoms of clear blue in early spring. 6 in.35
blanda. A spring beauty with large brilliant blue flowers. 6 in.50
blanda rosea. One of the finest. Large soft pink daisy blossoms. 6 in.35
canadensis. Blue-green foliage. Creamy white flowers. 18 in. N. A. ..	.25
cylindrica. Clusters of white flowers. Summer. 18 in. N. A.35
Drummondii. Finely divided foliage, lovely soft blue flowers. 6 in.50
fulgens. Dazzling scarlet flowers on 10 in. stems. Requires good drainage. Bulbs in fall.40
hupehensis. Ornamental foliage. Pinkish mauve flowers with deeper shadings.30
japonica alba. Beautiful white flowers in autumn. 2 ft.35

*Androsace Sarmentosa*

japonica Alice. The silvery rose petals become suffused with bright carmine as the flower buds expand.35
japonica Richard Arends. Large white flowers with lilac or pink tint.35
nemorosa. (<i>Wood Anemone</i>) Large white or lavender flowers. 8 in. Spring. N. A.50
nemorosa allenii. Large clear lavender blue flowers. N. A. <i>New.</i>75
nemorosa robinsoniana. Powder blue flowers with buff reverse.50
palmata. A beautiful European plant. Colors vary from white to rich yellow with crimson reverse. 6 in.75
patens. Large showy white or pale blue flowers in early spring. N. A.35
Pulsatilla (<i>Pasque Flower</i>) Large lavender flowers of great beauty followed by interesting seed pods. 6 in. Spring. Europe.35
St. Bavo. Colors ranging from scarlet through pink to lilac, blue and white, all with silvery white center. Spring.35
sylvestris. Fragrant white flowers. Long season of bloom. Spring. 18 in.25

ANTENNARIA—*Paving plants for sun and sandy soil.*

- neodioica.** Glistening downy grey spreading mats. Pale pink flowers. Spring. Lime. Sun. N. A.25
- rosea.** Prostrate silvery mats spangled with pretty pink flowers. 2 in. Spring. Sun.30

ANTHEMIS nobilis. Low creeping aromatic plant with white flowers. Useful for edging and paths. Has a fragrant scent when walked on. .25

ANTHYLLIS dilleni. Neat tufts of silver foliage. Rosy blossoms. Spring. Rare.50

ANTIRRHINUM—*Full sun and sandy soil.*

- glareosum.** Tiny bronzy foliage. Profusion of lavender flowers in summer.35
- glutinosum.** Downy grey foliage. White and yellow snapdragon flowers. 6 in. Summer.35

APHYLLANTHES monspeliensis. *New.* An interesting and beautiful plant with rush-like foliage and powder blue flowers borne on tips of leaves. 12 in. Rare.50

AQUILEGIA—*Partial shade; sandy loam.*

- alpina.** Large powder blue flowers with short spurs. 8 in. Spring. .30
- alpina atrocaerulea.** Large sapphire blue and white flowers. Long season.25
- alpina grandiflora.** A larger flowered form of *A. alpina*.35
- caerulea** (*Colorado State Flower*) Blue and white, long-spurred "butterflies" on 18 in. Stems. Spring.25
- caerulea Rose Queen.** A lovely rose colored variety.35
- canadensis.** Flowers with yellow sepals and red spurs. N. A.25
- chrysantha.** Large golden flowers. N. A.25
- flabellata alba.** Pure white flowers. Handsome variety.25
- Kitaibelli.** Downy foliage and fine blue flowers. Dolomites.30
- longissima.** We are fortunate in being able to offer this strikingly beautiful plant. The large drooping yellow flowers have spurs about 5 in. long. 2 ft. N. A. Supply limited. *New.*50
- long spurred mixed.** A fine selection in shades of pink, blue, and yellow. For naturalizing. 12 for \$1.25
- olympica.** Tall handsome species. Large blue and white flowers. Rare. .40
- vulgaris.** Nodding flowers, blue, purple and white. Summer. Europe. .25
- vulgaris Transylvanica.** Beautiful lavender flowers.25

ARABIS—*Sun. Sandy soil.*

- alpina nana compacta.** A small form having attractive grey-green foliage and white flowers. Spring.30
- Aubrietoides.** Neat and compact with fine rose colored flowers. 6 in. .35
- Oslo-allioni.** Grey-green serrated foliage. White flowers. Spring. Supply limited.50
- procurrens.** Small close growing clustered foliage bedecked in spring with myriads of white flowers. An excellent carpeter.25
- rosabella.** Mats of attractive foliage and pretty rosy blossoms in loose racemes. Caucasus. Spring. *New.*40
- sundermanni.** Rare cushion-plant from Bulgaria. White flowers. .. .40

ARCTOSTAPHYLOS Uva-ursi. Shining dark green leaves. Trailing red stems. White flowers followed by showy red berries. Rare. N. A. .60

Visitors always welcome.

ARENARIA

- Hookeri.** *New.* Dark green tufts spangled with white flowers in spring. Of great rarity.40
- laricifolia.** Mats of bright green. Dainty white flowers. 6 in. N. A. .. .35
- montana.** Close tufts. Charming white flowers. Spring.30
- verna var. caespitosa.** A mossy creeper adorned with white stars. Spring. Shade.25

*Armeria***ARMERIA (Thrift)**

- caespitosa.** Dwarf tufted species with delicate pale pink flowers. Spring. Spain.40
- cephalotes rubra (Bee's Ruby)** Giant Thrift. Large rosy flower heads. 10 in. June-August.40
- dianthoides.** *New.* Large rose colored flowers. May-July. Europe. .35
- japonica.** *New.* Tall form having large handsome rosy blooms. Spring and summer. Rare and fine.50
- Lauchiana.** Bright pink flower heads on 4 in. stems. Spring until frost.25
- maritima.** Compact tufts of grassy foliage. Crimson flowers. 6 in. June and July.25
- maritima alba.** *New.* Pure white flowers. Long season of bloom. .. .35
- Six Hills.** *New.* Dwarf form with pink flowers. Long season of bloom. Very fine.65

ARTEMISIA

- frigida.** Fragrant silvery foliage. Spires of gold. Summer.25
- mutellina.** A tiny silvery treasure of the high Alps. True form.50
- Silver King.** Silvery foliage. Sprays may be used for winter bouquets. 3 ft. Border variety.35

ASPERULA

- longiflora.** Beautiful little rock plant with pale pink flowers. 2 in. June-August. Alps.50
- odorata.** A charming woodlander. Green carpets spangled with dainty white flowers. Fragrant.35

*Aster Ptarmicoides***HARDY ASTERS***Spring Flowering***ASTER**—*Sandy loam in full sun.*

- alpinus albus.** Dwarf Aster. Large white flowers.25
- alpinus Dark Beauty.** A darker and finer form of Aster alpinus.25
- amellus King George.** Large trusses of violet-blue flowers. 12 in.40
- apricus Pikeana.** Large blue-lavender flowers. 10 in. Pike's Peak.75
- N. A. Very fine. *New.*

canbyi. A rare plant from the Rockies having showy rosy pink flowers on 10 in. stems. Early spring. *New.* each .50

Summer and Autumn Blooming

Hardy Asters produce fine color effects in the rock garden. Easy cultivation in sandy soil and sun.

Gold Flake. *New.* Pretty golden yellow flowers on 14 in. stems. August-October.35

kumleinii "Prairie Gem". Masses of bright blue, golden centered blossoms. Late September. Rare. Sun. 15 in. N. A.35

laevis. Sky blue flowers in great profusion. 14 in. Summer. N. A. .. .25

Little Boy Blue. Dwarf compact habit. Small blue flowers. Summer. .35

Little Pink Lady. Dwarf variety with large pink blossoms. September-October. A beauty. *New.*75

Mauve Cushion. Masses of pinkish mauve flowers in autumn. 10 in. .25

meritus. *New.* A plant deserving its name. Dwarf and choice. Mauve flowers. Summer. N. A.50

patens. Violet flowers. Late summer. 8 in. N. A.35

Pleiades. Dainty foliage. Profusion of lavender flowers on 8 in. stems. Autumn.30

Porteri. Dwarf. Pure white. Free bloomer. Mid-summer. N. A.40

ptarmicoides (Unamia Alba) Broad corymbs of fine white Aster-like flowers with creamy centers. Of distinct value, blooming July to Sept. 9 in. N. A. **See illustration.**50

subcaeruleus. Large lilac blue flowers. Dwarf type. Autumn.25

Sunshine Pink. Beautiful border annual. Large quilled pink flowers. *New.* 3 for 50c

surculosus. Purple flowers in August. 2 ft. N. A.35

surculosus alba. White form of the above. N. A.35

The following imported dwarf Asters are a valuable addition to the rock garden. They are of very low stature, close growing foliage and crowded with lovely flowers in late summer and autumn. Full sun and sandy loam. Easy cultivation. All are hardy.

ASTER

Countess Dudley. Rosy lavender flowers. 6 in.35

daphne. Beautiful soft pink flowers. 12 in.35

Lady Maddox. Pink flowers suffused with mauve. 5½ in.30

Nancy. Dwarf habit. Pale pink blossoms. 12 in. Sept.30

Remembrance. Good size rosy blossoms. 7 in.30

Ronald. Mauve flowers in mid-September. 12 in.30

Snowspite. Showy semi-double white flowers. Early September. .. .35

Victor. Very free flowering. Large blossoms of lovely clear lavender. 10 in. September.25

ASTILBE—Shade and acid soil.

chinensis pumila. A charming dwarf having close mats of ornamental foliage. Spikes of pink flowers. Late summer.40

simplicifolia. Dainty dwarf plant with glossy leaves. Delicate sprays of pale pink flowers. 6 in. Summer. Japan.35

AUBRIETIA—Aubrietias should be planted in soil containing lime, in full sun.

Crimson King. Beautiful crimson flowers. Spring.35

Eyrii. Large rich violet-purple flowers. Spring.35

hybrids. Colors vary from deep purple to pale lilac. Spring.25

Mrs. Lloyd Edwards. Striking deep crimson variety.35

AZALEAS

Azaleas add greatly to the charm of the rock garden. The blossoms are showy and the foliage always effective. They thrive in semi-shade and acid soil.

AZALEA

- amoena.** Glossy green foliage covered with cherry colored blossoms during May. Dwarf habit. 12-15 in. 1.50
 15-18 in. 2.50
Anthony Koster. Upright growing variety with large trusses of golden yellow flowers. 3.50
balsaminaeflora. The finest of all dwarf Azaleas. Procumbent stems with large camellia-like rose colored flowers over a long season. Choice and rare. **See illustration.** 4.50

Azalea Balsaminaeflora

- calendulacea** (*Flame Azalea*) A deciduous type. Probably the most gorgeous native Azaleas. Flame colored blossoms. Spring. N. A. 2.00
exquisite. Handsome bright green foliage. Salmon pink flowers. .. 3.50
macrantha. A handsome low spreading type. Shining foliage. Large rose colored flowers. July. 12-15 in. 2.50
obtusa japonica. Very dwarf form. Mauve blossoms. Rare and lovely. 3.00
Schlippenbachii. Large fragrant pink flowers. May. Japan. 4.00
See page 77 for other hardy Azaleas.

BALSAMORHIZA hookeri. Showy heads of golden flowers. Spring and summer. N. A.50
BARBAREA rupicola. Small mats of pretty foliage. Large bright yellow flowers. 6 in. Summer. Rare. <i>New.</i>40

Bellis

BELLIS

integrifolia (<i>Western Daisy</i>) Dwarf. Finely cut foliage and small mauve blossoms. Spring. N. A.35
perennis Longfellow. A fine hybrid with large flowers.25
rotundifolia caerulescens. Tiny powder blue daisies.35

BELLIUM

bellidieoides. Dainty dwarf daisy, tinted pink. Spring.25
minutum. Miniature daisy. Little green mats. Countless tiny white blossoms all spring and summer. Hardy.35

CALAMINTHA alpina. Mass of pretty procumbent foliage covered with purple flowers. Summer.25
---	-----

CALANDRINIA umbellata. Glowing crimson flowers on 6 in. stems. Summer.35
--	-----

CALLIRHOE involucrata. Trailing plant covered all summer and autumn with silky cups of rosy violet with white centers. Effective on walls and dry sunny spots in the rock garden.35
---	-----

each

CALLUNA—*These belong to the Heather family. Dwarf compact shrublets. Shade and peat. Splendid for massed effects.*

multiplex. A good dwarf form with white bells.35
pilosa alba. Dwarf Heather with white flowers. <i>New.</i>35
vulgaris alba. White form of the type.35
vulgaris aurea. Dwarf variety with golden leaves; pink flowers.35
vulgaris cuprea. Leaves golden, turning bronze. Rosy pink bells. ..	.35
vulgaris fl. pl. Fine double pink flowers. <i>New.</i>50
vulgaris multiflora alba. Lovely white variety. <i>New.</i>50
vulgaris variegata aurea. Golden foliage. Pink and white flowers. ..	.35

CALTHA

palustris. (<i>Marsh Marigold</i>) Large yellow flowers and glossy foliage. Shade. Spring. N. A.25
Dr. Rocks species. <i>New.</i> Beautiful large yellow flowers, two to four inches across.65

Campanula
"Cronamere Seedling"

CAMPANULA

abietina. Lovely blue flowers all summer. 8 in.35
alliariaefolia. Downy foliage. Large white bells. 15 in. Caucasus. ..	.30
Allionii. High alpine species. Very dwarf. Large violet-blue flowers. True form. Rare gem. Alps.75

barbata. Porcelain blue blossoms. The lovely bearded bell flower of the Alps.35
bononiensis. Fine border species from Switzerland. Blue flowers on 3 ft. branching stems. Summer.50
carpatica Ditton Blue. Large deep blue flowers. Very fine. 8 in.35
carpatica grandiflora. <i>New.</i> Larger flowers than the type.40
carpatica Riverslea. Very handsome form. Large clear blue flowers. 12 in.40
carpatica White Star. Large pure white flowers over a long season.35

Campanula Carpatica White Star

Cronamere seedling. A striking plant of outstanding beauty. The extremely large star shaped flowers are a dazzling mass of sky blue. Spring. See illustration.75
divaricata. Oval sharp-toothed leaves. Panicles of nodding pale blue flowers. N. A.35
elatinoides. A fine form with woolly foliage, dainty blue flowers. Rare.50
fenestrellata. Close-growing mats. Lovely lavender flowers.35
Fernandino. Rosetted form with brilliant blue bells. Rare.40

	each
garganica. Dwarf form having masses of star shaped blue flowers in spring. Italy.30
glomerata acaulis. Pretty dwarf form with clusters of rich violet flowers. N. A.25
istriaca. A small species with a profusion of pale blue starry flowers. Summer.35

Campanula Muralis
in wall

lasiocarpa. A Japanese plant of remarkable beauty. Its blue cups have a velvety sheen.60
latifolia. Rosetted foliage and handsome lavender blue flowers. Tall habit. Europe.35
marchessetti. Purple bells. Very free flowering. 9 in. Fine rock plant.50
muralis. Dainty foliage. Pretty tubular violet flowers. 9 in. Dalmatia. Spring and autumn. See illustration.30
Norman Grove seedling. Lovely rare hybrid. 3 in.35
persicifolia. Violet blue flowers. Europe. 3 ft. Border or background of rock garden.30

each

<i>persicifolia alba</i> . White form of above. 3 ft.30
<i>petiolata</i> . The Western Harebell is unexcelled for continuous bloom. Beautiful violet bells. 8 in. Summer-autumn. N. A.50
<i>poscharskyana</i> . A trailer with prostrate sprays of starry blue flowers. Rare.35
<i>pulloides</i> . Wide open purple bells. A choice alpine.35
<i>punctata</i> . Soft grey foliage. Creamy bells flecked with red. Asia. ..	.25
<i>pusilla</i> . Dwarf species with a profusion of blue blossoms. Europe. ..	.35
<i>pusilla alba</i> . White form of the above. Europe.35
<i>Robsoni</i> . A hybrid with fine large deep blue flowers.50

*Cerastium Arvense*

<i>rotundifolia</i> . Graceful habit. Profusion of bright blue bells on slender stems. 12 in. Long season of bloom. N. A.35
<i>rotundifolia</i> var. <i>Olympica</i> . Slender graceful foliage. Blue bells all summer. N. A.35
<i>sarmatica</i> . Grey foliage. Nodding pale blue bells. 2 ft.25
<i>turbinata</i> . Violet blue flowers. Dwarf form. Summer.25
<i>turbinata alba</i> . White form of the above.30

	each
CATANANCHE caerulea. Lovely mauve flowers with darker centers. Summer.30
CEANOTHUS prostratus. A much branched prostrate little shrub. Foliage like a miniature holly. Dainty balls of blue. Spring. Rare and beautiful. N. A. <i>New</i>	1.00
CENTAUREA dealbata. Silvery leaves. Large pink flowers. 18 in. Fine border plant.35
CENTRANTHUS ruber. (<i>Red Valerian</i>) Glaucous foliage. Fragrant coral red flowers. Summer and autumn. 12 in.30
CERASTIUM	
argenteum (<i>C. Grandiflorum</i>) Silvery leaves and white flowers. The best of the grey foliage forms. Europe.35
arvense compactum. Creeper. Excellent rock plant. Bright green foliage and dainty white flowers. N. A. See illustration.35

*Cistus***CHRYSANTHEMUMS—Hardy.**

alpinum. A high alpine of dwarf habit and pretty Marguerite flowers in spring. Semi-shade. Alps.50
arcticum. Aster-like white flowers completely covering the foliage in autumn. 12 in. Arctic regions.30
cascade. A greenhouse form. Japanese mountain Chrysanthemum. Long trailing stems. Pink and white flowers. Beautiful porch plants.	1.00
coreanum. Profusion of pink and white flowers with golden centers. Autumn. Korea.25

Mawii. <i>New.</i> A charming species recently introduced. Finely divided foliage. Dainty pink flowers with rose centers. 12 in. Spring-summer.35
Pink Cushion (<i>Azalea Flowered Chrysanthemum</i>) A new and quite sensational plant covered from August until frost with lovely soft pink blossoms.50
Tchihatchewii (<i>Pyrethrum Tchihatchewii</i>) Prostrate dark green ferny foliage and large white Daisies all summer. An excellent wall plant.35
CHRYSOPSIS villosa. A small shrublet of procumbent habit. Grey foliage. Clouds of yellow Asters in summer over a long season. A valuable addition to the rock garden and sunny walls. Sandy soil and sun. N. A.40
CISTUS — <i>These plants have remarkably beautiful flowers and very long season of bloom adding to the summer coloring of the rock garden. Sandy soil and full sun. Half hardy.</i>	
cyprius. <i>New.</i> Handsome variety. Large white flowers with red markings.50
ladaniferus. <i>New.</i> Of striking beauty. Pure white flowers 4 in. across with maroon markings35
villosus. <i>New.</i> Tomentose foliage. Large rosy-pink flowers with yellow base resembling a wild rose. All summer. Sun. Sandy soil.50
CLAYTONIA sweetseri. Tufts of small bright green leaves. Racemes of dainty pink or white flowers. Shade. N. A. Rare.50

CLEMATIS

These beautiful vines have delicate foliage which dies down in winter. Very effective when planted near evergreens in the background of the rock garden. Their twining stems and gorgeous blossoms show to great advantage on pines and other evergreen trees. In autumn mulch with manure. The following list will carry bloom from early spring until late autumn. Blooming size. The shrubby types and dwarf species are excellent rock plants.

SMALL AND MEDIUM FLOWERED SPECIES

CLEMATIS

alpina. (<i>Syn. Atragene alpina</i>) Climbing species. Satiny blue flowers of great beauty. Spring and autumn. Europe.	1.00
crispa. Semi-climbing species. Fragrant purple flowers shading to pink on margins. Summer. N. A.85
Davidiana. Semi-shrubby species. Fragrant blue tubular flowers. 2 ft. China. Summer.50
flammula. A vigorous climber producing a profusion of richly fragrant little white flowers and billowy masses of silvery seed pods. For walls and trellises. Late summer. Europe. Prune back in winter.	1.00
Fremontii. Flowering bells of lavender. Easy culture. Excellent for rock gardens. 12 in. N. A.75
integrifolia. Low bush. Large blue flowers. Long season. Fine for rock gardens. Siberia.35
montana rubens. Handsome climber. Flesh pink flowers. Spring. China.	1.25
montana undulata. Large white flowers suffused with pink. Spring.	1.00
recta. Graceful erect shrub with shining decorative foliage. Terminal panicles of fragrant creamy-white flowers followed by feathery seed pods. 3-5 ft.35

Clematis Ramona

Advice freely given on cultivation.

each

recta grandiflora. Shrub with 2 in. white flowers in large terminal sprays. Very beautiful and easily grown. 2 ft.85
recta mandschurica. Climbing to 8 ft. Fragrant white flowers. China.	1.00
tangutica. Claimed to be the most beautiful yellow Clematis grown. Flowers 3 to 4 in. across. Climbing species.	1.00
texensis (<i>C. coccinea</i>) A climber to 6 ft. Blue-grey foliage. Curious pitcher-shaped scarlet flowers. Distinct and showy species. Summer. N. A.75
Vitalba (<i>The Travelers Joy</i>) Vigorous climber with masses of white fragrant flowers in autumn. England.	1.00

LARGE FLOWERED HYBRIDS

Duchess of Edinburgh. Large fragrant double white flowers. Free bloomer. A superb variety. Summer-autumn.	1.00
Gypsy Queen. Bright velvety purple. Handsome variety. Late summer and autumn.	1.00
Henryi. Very large glistening white flowers. Frequently 8 in. across. Spring. Autumn.	1.00
Jackmani. Large deep royal purple flowers. Summer-autumn.	1.00
lanuginosa. Fine large mauve flowers with silvery sheen. Spring.	2.00
Lawsoniana. Large rosy purple flowers with darker veins.	1.50
Mme. Baron Veillard. Large flowers of a lovely shade of satiny pink. Summer-autumn.	1.00
Mme. Edouard Andre. Bright velvety crimson. Free flowering. Summer-autumn.	1.00
Nellie Moser. Large rosy white flowers striped with mauve. Bright purple anthers. A beautiful variety.	1.50
Ramona. Very large silvery lavender-blue flowers. Exquisite texture.	1.00
CODONOPSIS ovata. Downy foliage and lovely pale blue flowers flecked with darker color on the inside.40
COMMELINA crispa. Semi-creeping plant with jointed stems. Bright blue flowers. All summer.35
CONVOLVULUS	
Cantabricus. An absolutely hardy Morning Glory with trailing silvery foliage covered from spring until autumn with enchanting large shell pink blossoms. A rock plant of striking beauty and great garden value. Full sun and sandy soil.50
mauritanicus. Mats of beautiful foliage covered with large powder blue flowers from spring until frost. Should be in every rock garden. Needs winter protection.35
COREOPSIS verticillata. Dwarf form. A dainty plant of slender habit covered all season with bright yellow flowers.35
CORNUS canadensis. A tiny Dogwood for shady corners. Whorls of leaves on 3 in. stems. White Dogwood blossoms followed by red berries. N. A.35
CORYDALIS	
cheilanthifolia. Attractive finely divided foliage and clear yellow flowers. Summer. 12 in. Shade.35
lutea. The best of the family. Ferny foliage and golden blossoms. All summer and autumn. 8 in. Shade.40

each

COTONEASTER

- Dammeri.** A dwarf. Fine trailer over rocks. Pretty glossy leaves and pale pink flowers followed by coral red berries. Spring. China. .75
- Dammeri radicans.** One of E. H. Wilson's finds in China. Small evergreen shining foliage. Pearly white flowers followed by bright red berries. Dwarf form. Rare.75

Convolvulus Cantabricus

- COTULA squalida.** An attractive carpenter with small ferny evergreen foliage. 2 in. Shade. New Zealand.25
- CREPIS occidentalis.** Rosette of grey-green deeply cut leaves. Bright yellow rayed flowers. For sun and sandy soil. Long season of bloom .25
- CRUCIANELLA stylosa.** Bright green prostrate foliage. Heads of rose colored flowers. Persia.30
- CYCLAMEN**—*These dwarf Cyclamen are entirely hardy. Should be planted in leaf soil and shade.*
- atkinsi.** Marbled foliage. Lovely pink flowers in spring. 1.00
- europaeum.** Leaves marbled and veined in white. Flowers from pale pink to deep rose. Late summer. Fragrant.85
- graecum.** Heart shaped leaves. Exquisite pink flowers. Autumn. .. 1.00
- neapolitanum (C. hederaceifolium)** Marbled foliage and flowers which vary in color from pure white to rich pink. Charming and easily grown.85

CYTISUS (*See Genistas*) For the gardeners convenience we are listing *Cytisus* under the *Genistas* as the botanical distinctions between the two groups are very slight.

DAPHNE

alpina. *New.* Attractive deciduous Alpine shrub. Heads of fragrant white flowers. 18 in. Rare. 2.00

Cneorum (*The Garland Flower*) An evergreen shrub covered in spring and autumn with lovely pink flowers. Delightfully fragrant. 1.50

DASYSTEPHANA Porphyrio (*Gentiana Porphyrio*) Narrow foliage. Large trumpet shaped blossoms of brilliant blue. The latest *Gentian* to bloom in autumn and one of the loveliest. 5 in. N. A. .50

DELPHINIUM

Brunonianum. *New.* Large musk scented flowers of pale blue. 12 in. Tibet.35

chinense. Dwarf form with finely cut foliage, and blue flowers. Summer.25

chinense album. White flowering form of the above.35

cineraria. A beauty from Tibet having large spurless flowers of brilliant blue. 10 in. Rare.40

grandiflorum Blue Butterfly. Brilliant deep blue flowers. 12 in.25

likiangensis. *New.* Violet colored blossoms on 6 in. stems. Yunnan. .50

tatsiense. Pretty species with sapphire blue flowers. China.35

Tom Thumb. Fine dwarf hybrid. Neat habit of growth. A long succession of large lavender-blue flowers.35

DIANTHUS—Require full sun and sandy loam.

alpinus. Close growing dark green foliage. Large rosy flowers on 2 in. stems. True form. Switzerland. Partial shade.40

arenarius. Lavender fringed flowers. 6 in.30

arvernensis. Silvery tufts. Sweet scented rosy pink flowers. 2 in. France. Lime.35

Beatrix. Double flowers of pale pink. All summer. 6 in. A great favorite.35

caesius. (*Cheddar Pink*) Compact blue-grey mats. Fringed pink flowers. 6 in. Lime.30

caesius fl. pl. Beautiful compact form with double pink flowers.35

carthusianorum. Heads of rosy pink blossoms. 12 in.30

deltoides var. Bowles. Trailer. Bronzy foliage. Rich crimson flowers. .30

deltoides Rockhome. A fine form. Brilliant red flowers.35

deltoides Utrecht. An improved *deltoides* type.25

frigidus. Dwarf tufts. Lovely rose colored flowers. Hungary.25

graniticus. Silvery cushions with small starry pink flowers. 6 in. Pyrenees. Lime.35

Grisebachii. Trailer with charming rosy pink flowers.35

hybridus Elstead Strain. Very effective flowers in clear rose shades. Long season of bloom. *New.*35

Liboschitzianus. Large showy white flowers. 12 in.25

montanus. A fine type. Grey foliage and large showy crimson flowers. Spring. 8 in.35

monticola. Unusually large deeply fringed rosy flowers. 6 in. A beautiful type from Japan.30

neglectus. True form. Small tufts. Bright pink flowers.35

neglectus roysii. *New.* A larger form of *D. neglectus*. Exquisite rose flowers.45

Dianthus Alpinus

Note plants giving long season of bloom.

CRONAMERE ALPINE NURSERIES, INC.

27

each

petraeus. Small cushions covered with fragrant white flowers. Spring. Europe. Lime.35
plumarius. Silvery grey mats. Flowers rose, lavender, white and parti-colored. Lime.25
P. Highland Queen. Bright crimson single flowers.35
P. Ipswich Crimson. Large deep crimson flowers. <i>New.</i>30
P. Little Jock. <i>New.</i> Fringed flowers; pink, rose, and white.25
P. Mrs. Sinkins. <i>New.</i> Large double white flowers. 12 in. Rock garden or border.25
P. Rose of May. <i>New.</i> Large double rose flowers.35
roysii. One of the finest. Cushions of silvery foliage covered in summer with unusually large rosy blossoms.35
spiculifolius. Heavily fringed pale pink flowers.35
subacaulis. Tiny blue-grey tufts and stemless flowers of rich carmine. 1 in. Spain. Lime.30
Sundermannii. Rare Macedonian species. Large close growing cushions. Fringy white flowers. Spring. A favorite.50
superbus. Very large lacy lavender blossoms. Fragrant.35
vaginatus. <i>New.</i> Fine rose colored flowers.35
Waldsteinii. Fragrant little feather pink. Eastern Alps.40
Winteri. <i>A beautiful strain imported from England, blooming continuously throughout the summer. New.</i>	
W. Meg. Gardner. Fine white flowers with crimson centers.35
W. Mrs. Back. White lacinated petals with violet centers.35
W. Mrs. Wormald. Charming pink flowers with darker centers.35

DICENTRA

formosa. Fernlike foliage. Graceful arching stems with drooping pink flowers all summer. 12 in. Sun or shade. N. A.25
oregana (<i>glauca</i>) Silvery foliage and glistening white flowers. Spring and autumn. N. A.40

DIGITALIS

ambigua. Loose spikes of large yellow bells. 18 in.30
dubia. Rosettes of grey woolly leaves. Large soft pink bells. 8 in. ..	.35
obscura. Orange flowers in June. Rare.40

DIPLARRHENA morea. Beautiful plant from Australia belonging to the Iris family. Glistening white flowers pencilled with blue. Golden centers. 12 in. Needs winter protection.50
---	-----

DODECATHEON

Meadia. (<i>Shooting Stars</i>). Flowers vary from white to soft rose. 15 in. Early spring. N. A.30
multiflorum. Profusion of brilliant rose colored flowers on 12 in. stems. One of the finest from the high Rocky Mts. N. A.60

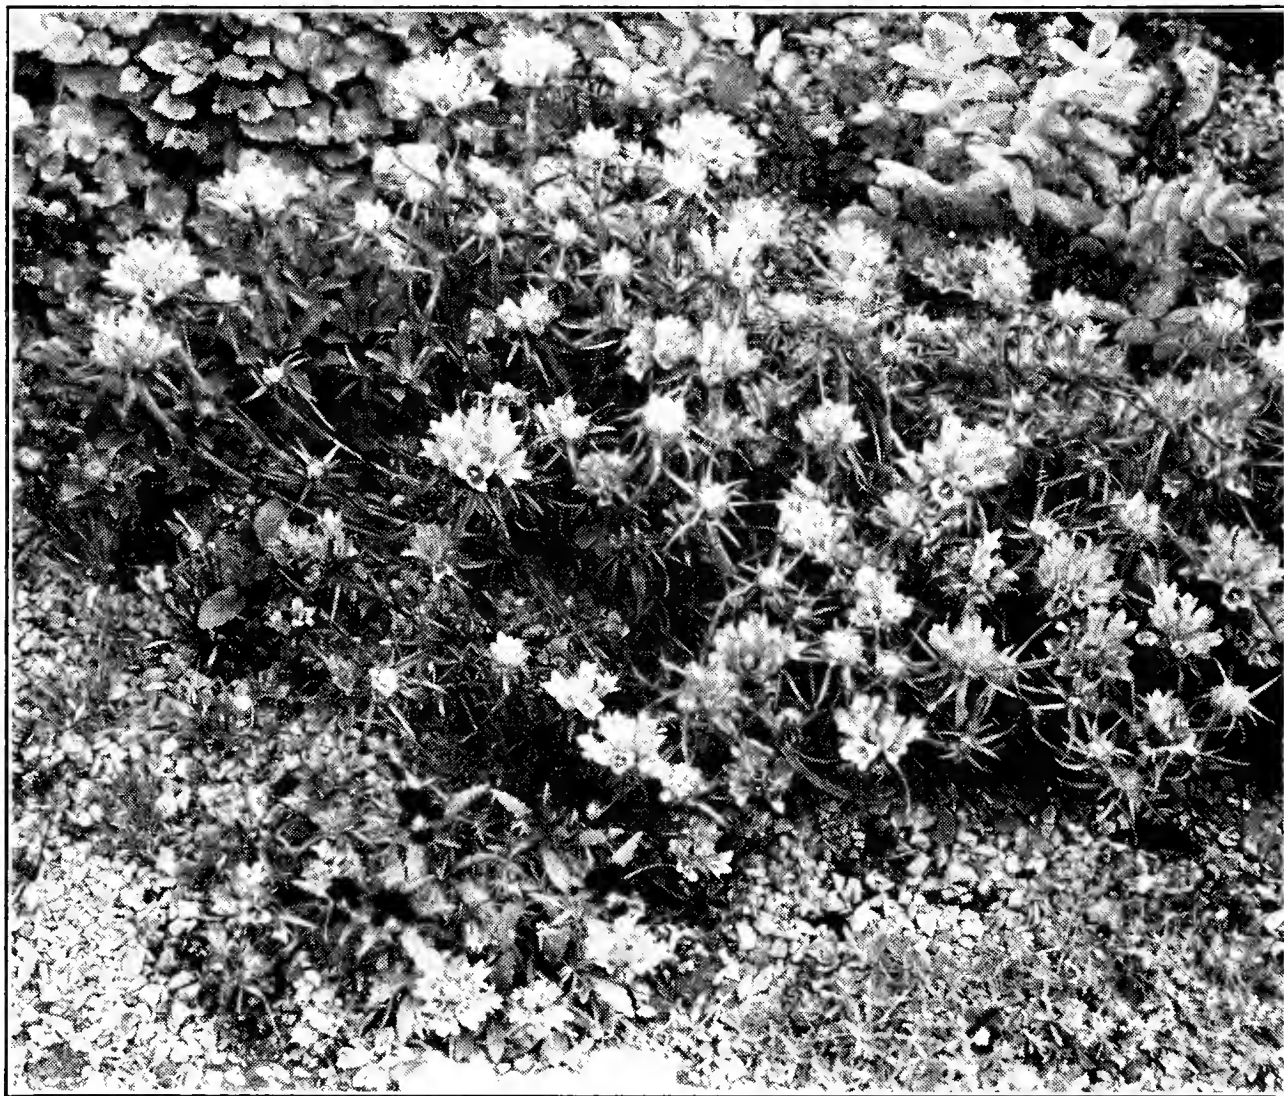

DORONICUM

caucasicum. Large yellow blossoms on 2 ft. stems. Spring.35
Mme. Mason. Golden blossoms in spring. Dwarf form.40

DRABA

fladnizensis. A high alpine cushion plant covered with white flowers in spring. 3 in. Sun.25
hirta. Narrow green leaves and pure white flowers. 6 in. Spring. Eurasia.35
johannis. Mat forming plant covered in spring with myriads of white flowers. 3 in.35

	each
olympica. Dark green foliage. Sprays of sparkling yellow flowers. Partial shade. Europe.35
sibirica. <i>New.</i> Small rosetted foliage. Dainty yellow flowers. 5 in. Spring until autumn. Siberia.35
DRACOCEPHALUM	
alpinum. Dwarf form with charming blue flowers. Rare.35
peregrinum japonicum. Decumbent foliage covered during July with masses of lovely blue flowers.35
Ruyschiana. Attractive foliage and whorls of violet-blue flowers. 12 in.	.35

Wahlenbergia Dalmatica

DRYAS

octopetala. Evergreen mats of small oak-like leaves. Glistening white flowers in spring followed by silvery whorls of fluffy seeds. N. A.	.60
sundermannii. Prostrate foliage. Fine white flowers followed by attractive seed pods. Spring.40
ECHINACEA angustifolia (<i>Brauneria angustifolia</i>) Large pink daisies with dark centers. 10 in. Summer. A handsome rock plant. N. A.	.40
EDRAIANTHUS dalmaticus (<i>Wahlenbergia dalmatica</i>) A rare treasure having small tufts of grassy foliage and large clusters of lovely blue bells. Europe. Spring. See illustration.35
EPIGAEA repens (<i>Trailing Arbutus</i>) Prostrate foliage. Sweetly scented waxy pink flowers. Leaf soil. Shade. Spring. N. A.35

EPIEDIUM

- mixed.** These plants have beautiful foliage; their autumn tints are quite lovely. Plant in shade and leaf soil. Flowers vary from lavender to pink and yellow.35
- macranthum.** Handsome form. Creamy yellow long-spurred flowers. Bronzy foliage. 12 in. Spring.60

*Epigaea Repens***ERICA**—*Partial shade, sand, and peat soil.*

- carnea.** (*The Alpine Forest Heath*) Invaluable winter flowering dwarf shrub. Should be planted in wide masses. Rosy bells in greatest profusion. 10 in.35
- carnea Mrs. Doncaster.** *New.* Rich rose flowers. An exquisite hybrid.50
- carnea King George.** Fine dark red flowers. Blooms early.75
- ciliaris** (*The Dorset Heather*). Lovely rosy-red flowers. Summer.50
- ciliaris Mrs. Gill.** *New.* Large rich red flowers. Handsome form.75
- compacta nana.** A slow growing compact dwarf with charming pink bells. Summer. 9 in.50
- darleyensis.** *New.* Soft rosy blossoms. Late autumn.35
- mediterranea.** Rich rosy red flowers. Early spring.35
- stricta.** Clusters of drooping rosy pink flowers. Corsica.35
- Tetralix.** Bells of soft pink in terminal clusters. 12 in.40
- Tetralix mollis alba.** Pretty dwarf form. White bells.50
- vagans.** (*The Cornish Heather*) Lavender flowers in late summer.35
- vagans St. Keverne.** *New.* Bright rose pink flowers. June-October.50
- vulgaris Searlei.** One of the best white forms. Free flowering.40

Pictures taken in our Rock Garden.

Erigeron

ERIGERON — <i>The Erigerons help to prolong the spring and summer bloom. They are of easy cultivation in full sun and sandy loam and add greatly to the color of the rock garden in summer.</i>	each
alpinus. High alpine with soft pink daisy-like flowers. 3 in. Spring.	.35
aurantiacus. Rich orange flowers. 9 in.35
caespitosus. A dwarf form with attractive foliage and rather large white rayed flowers. Rare.40
canus. A charming dwarf with dainty Aster-like flowers. <i>New.</i>35
caucasicus. Low tufted plant with a profusion of lavender flowers. Summer.25
compositus. Dainty little plant with ferny foliage and lovely little Daisies of palest lavender. 2 in. N. A.35

each

filifolius. Small perennial Daisy of great charm from the mid-west. Spring. N. A.35
flagellaris. An excellent rock plant with downy foliage. Charming lavender daisies all summer. Rare. N. A.40
glabellus. Large violet flowers on foot high stems.25
howellii. Large pure white flowers on 10 in. stems. Summer. N. A. ..	.30
linearis. Mats of trailing stems. Pale lavender Daisies. N. A.25
macranthus. Large purple flowers. Long season.25
Mesa Grande. Large lavender Daisies on 8 in. stems. Long season.35
multiradiatus roseus. Himalayan species. A dwarf having large flowers of mauve pink. Spring.35
pinnatisectus. <i>New.</i> Beautiful high-alpine with silvery foliage. Large violet flowers. Summer. N. A.50
pumilus. <i>New.</i> Very dwarf type with charming blossoms. N. A.40
trifidus. Dainty alpine. Soft lavender flowers. 2 in. Summer.50
ERINUS	
alpinus. Mats of small rosetted foliage. Rosy-purple flowers. 3 in. Fine wall and crevice plant.25
alpinus Dr. Hanelle. Dark green mats. Ruby-red flowers. Spring.35
ERIOGONUM parvifolium. <i>New.</i> Glossy foliage. Pretty white to pink flowers. N. A. Lime.40
ERIOPHYLLUM	
caespitosum (<i>Oregon Sunshine</i>) Silvery grey foliage covered in early summer with brilliant golden flowers. Full sun. Sandy loam. N. A.35
ERODIUM—Full sun. Sandy soil.	
amanum. Grey foliage. Sprays of white flowers. Long season of bloom. Syria.75
chamaedryoides roseum. A miniature alpine. Small mats of dainty scalloped foliage. Fascinating little rosy flowers on 2 in. stems nine months of the year. This is always in demand for semi-shady spots in the rock garden.35
geifolium (<i>Geum leaved</i>). <i>New.</i> Charming lilac flowers. Summer.50
guicciardi. <i>New.</i> Masses of attractive foliage. Loose heads of pretty pink flowers. Northern Greece.50
macradenum. Attractive foliage. Pale mauve flowers with purple spots on two upper petals. Sun. Pyrenees.50
Manescavi. (<i>Heron's Bill</i>). Showy fuchsia colored blossoms all summer and autumn. 14 in. Pyrenees.35
petraeum. <i>New.</i> Pale pink flowers veined with deeper pink. 8 in. A beautiful form. Pyrenees.75
romanum. Silvery foliage. Bright pink blossoms.75
ERPETION reniforme. (<i>Viola reniformis</i>). Dainty little dwarf with lovely violet and white flowers. Protect in winter.35
ERYSIMUM reptestre. Small mats of bright green foliage crowned with golden flowers in spring. A good rock plant.35
ERYTHRAEA diffusa. "Pink Gentian." Creeping mats of small bright green leaves. Pale pink flowers. Azores.35
EUONYMUS (<i>Winter Creeper</i>).	
kewensis. A miniature evergreen vine. Effective over large rocks.35
radicans. Small evergreen vine for banks and walls.35
radicans variegatus. An attractive little climbing plant with grey and white foliage. Useful over large rocks or planted at the base of trees.35

Cronamere Rock Garden Pool

See page 3 for list of Paving Plants.

	each
<i>speciosus</i> . A dwarf shrublet with shining dark green foliage.35
<i>speciosus</i> var. Silver Queen . A miniature shrublet. Charming variegated foliage. 5 in.35
EUPHORBIA — <i>Full sun and poor sandy soil.</i>	
Cyparissias . Many yellow flowers bracts. 8 in. Spring. N. A.25
Myrsinites . Showy plant with trailing stems of seafoam blue foliage terminating in showy heads of golden yellow. Spring.25
polychroma . Symmetrical habit. Yellow flowers in spring. 12 in. ..	.30
FESTUCA glauca . Dwarf. Blue-grey tufted grass. 8 in.25
FRAGARIA	
Daltoniana . Glossy evergreen leaves. Large glistening white flowers. Foliage takes on beautiful colors in autumn. China.35
indica . A pretty trailer with bright yellow flowers followed by crimson fruits. <i>New</i>25
FUNKIA minor . A delightful dwarf with beautiful powder blue lilies in autumn. 5 in. Partial shade and acid soil. Rare and choice.75

Genista Sagittalis

GALPINSIA lavandulaefolia . A mass of graceful procumbent foliage covered with large golden flowers from spring until autumn. A beautiful and showy rock plant. Rare. Sun and sandy soil. N. A. ..	.50
GAULTHERIA	
humifusa . <i>New</i> . A rare and charming miniature form from the high Cascades. Prostrate tufts of oval leaves. Racemes of waxy pink flowers followed by berries. N. A.75
procumbens (<i>Creeping Wintergreen</i>). Little creeper with glossy leaves turning red in winter. White urn-shaped flowers. Bright red berries. 4 in. Shade. N. A.25
GAURA Lindheimeri . Loose spikes of white flowers, buds tinted mauve, blooming continuously all summer and autumn. 2 ft.35

each

GENISTA (*Broom*) — *These plants add great beauty to the sunny rock garden and planted walls. They are easily grown in sun and sandy loam. A collection will bring much gaiety of color to the garden during spring and summer.*

Beani. A choice English hybrid. Low growing shrub covered with masses of golden flowers in early summer.	1.25
dalmatica. Evergreen cushion. Brilliant golden flowers. June-July. ..	.75
Dorothy Walpole. <i>New.</i> Masses of glowing crimson flowers touched with pale gold. A strikingly beautiful plant.	1.35
firefly. (<i>Cytisus</i>). Flowers of gold flecked with crimson and bronze. Long season. Very effective and rare.	1.25
germanica. Dwarf and compact with brilliant golden blossoms.	1.00
hispanica nana. Choice species. Gay yellow flowers. Spring. 12 in. ..	.75
kewensis (<i>The Kew Broom</i>). Cascades of soft creamy-yellow. A grand trailer for the rock garden.	1.00
ovata. Slender branches terminating in brilliant yellow flowers. May to July. 18 in.50
praecox. Compact shrub. Charming cream colored blossoms. Spring. Excellent border plant. 3 to 5 ft.75
purpureus (<i>Cytisus</i>). A rare and beautiful dwarf shrub covered with mauve and purple flowers in spring.75
sagittalis (<i>The Arrow Broom</i>). Prostrate shrub. Curiously winged stems. Golden flowers.50
scoparius (<i>Cytisus</i>). Dwarf shrub with showy yellow blossoms.85
tinctoria. Sprays of bright yellow in summer. 2 ft.40
tinctoria fl. pl. Semi-prostrate form. Densely covered with double yellow flowers. Summer.50

GENTIANA

A collection of Gentians carries bloom from early spring until late autumn. Indispensable rock plants. Gentians are easily grown and bloom profusely in this country. They require firm planting in rich sandy loam and peat. Shade.

acaulis. The famous Trumpet Gentian of the Alps. Large brilliant sapphire trumpets. Dark green pointed foliage. Blooms in spring. A few scattered blossoms again in autumn.50
acaulis alba. A rare and lovely white form of the above. Scarce.	1.00
altaica. A low-growing species with short trailing stems and handsome violet blue trumpets. Early summer.50
angustifolia. Lovely species. Flowers of clear blue. 3 in. Alps.75
cruciata. Clusters of dark blue flowers. 12 in. Late summer.35
dahurica. A rare species from Asia with umbels of dark blue flowers.35
Farreri. One of the most beautiful of all Gentians. Semi-prostrate habit and grassy foliage. Glorious sky-blue trumpets. Late summer. 4 in. Tibet.50
Freyniana. Trailing stems ending in two or three large bells of bright blue. 6 in.35
Lagodechiana. Large blue clustered flowers speckled inside with white. 4 in. Summer.35
linearis. Slender and erect in habit. Heads of pale blue flowers. 12 in. Moisture.50
phlogifolia. A beautiful Gentian from Transylvania with large clusters of brilliant blue flowers. June.35

porphyrio (<i>Dasystephana porphyrio</i>). Narrow foliage. Large trumpet shaped blossoms of brilliant blue. The latest Gentian to bloom in autumn and one of the loveliest. 5 in. N. A.50
Purdomi . Large rosettes. Clusters of blue trumpets on procumbent stems. An excellent type from Tibet.35
Przewalskii . Farrer calls this "One of the loveliest of Gentians" with "Clusters of the most splendid big azure goblets."40
Rochellii . Heads of large blue trumpet shaped blossoms. Very fine. Midsummer. See illustration.40

Gentiana Rochellii

scabra . Terminal clusters of dark blue flowers spotted white. A rare form from Manchuria. <i>New</i> . Scarce.50
septemfida . Leafy procumbent stems. Sapphire blue trumpets.35
siphonantha . <i>New</i> . Lovely cluster heads of blue flowers. August. China. 8 in.35

	each
<i>straminea</i> . A rather curious species with pale golden flowers. China.	.50
<i>tenella</i> . <i>New</i> . Charming blue flowers on slender stems. July. Arctic.	.50
<i>tianschanica</i> . <i>New</i> . Large leaves and fine blue flowers. 10 in. Asia.	.40
<i>trichotoma</i> . A free flowering plant with rich dark blue flowers. China.	.35
<i>Walujewi</i> . Large white flowers dotted inside with blue. A splendid plant for the wild garden. Turkestan.	.35

The great interest displayed in *Gentians* has led us to propagate these beautiful plants extensively, so now we are enabled to make you a **SPECIAL OFFER** of a collection of ten varieties, **YOUR SELECTION**, for \$3.50. This offer includes our entire list with the exception of varieties marked "scarce" of which our supply is limited. We reserve the right to substitute in case any of the above varieties are sold out.

GERANIUM—*The ornamental foliage and lovely blossoms of the hardy Geraniums make them valuable subjects for the rock garden or border. Sandy loam and sun.*

<i>argenteum</i> . Pretty little tufts of glistening silver and large flowers of apple blossom pink. 3 in. Summer. Lime.	.65
<i>Endressi</i> . A lovely Pyrenean species requiring partial shade. Clear rose flowers over long season. 12 in.	.35
<i>grievesi</i> . Beautiful rose-pink flowers. 14 in.	.35
<i>ibericum</i> . Fine blue flowers on 18 in. stems. Richly colored foliage in autumn. Caucasus.	.35
<i>ibericum</i> var. <i>Floraire</i> . An improvement of the type with larger lavender flowers. Borders or background of rock garden.	.50
<i>macrorrhizum</i> . Fragrant foliage rich colorings in autumn. Rosy lavender flowers. 9 in.	.35
<i>napuligerum</i> . Dwarf. Fine large pink flowers with black anthers. Tibet. Rare and choice. <i>New</i> .	.75
<i>platypetalum</i> . Masses of large purple flowers on 18 in. stems. Summer. China.	.35
<i>pratense</i> . Flowers of soft lavender blue. 18 in.	.30
<i>pratense album</i> . Handsome white form of the above.	.35
<i>pyrenaicum</i> . Masses of purple flowers. 12 in.	.35
<i>sanguineum</i> (<i>The Blood-red Cranebill</i>). Symmetrical habit. Rosy flowers in great profusion. 12 in. Summer.	.30
<i>sanguineum lancastriense</i> . Prostrate trailing foliage covered all spring and summer with lovely large flowers of softest pink. A satisfactory plant of high quality.	.35
<i>sanguineum prostratum</i> . Same habit as preceding, but with flowers of deep rose.	.30
<i>sessiliflorum</i> . Large white blossoms. Pretty foliage. Chile.	.35

GEUM (Avens) — *Full sun or partial shade. Rich loam.*

<i>aurantiacum</i> . Dark green handsome foliage and large orange-yellow flowers. Rare. Very fine dwarf form.	.35
<i>Borisii</i> . Large orange-scarlet flowers on short branching stems. 9 in. Summer.	.25
<i>campanulatum</i> (<i>Sieversia campanulata</i>). Finely cut foliage. Lacquer red urn-shaped flowers. A fine alpine. 6 in. Scarce.	.50
<i>chiloense atrosanguineum</i> . Attractive foliage and scarlet flowers. 12 in. Chile. Scarce.	.30
<i>ciliatum</i> . Showy golden flowers. Spring. N. A. Scarce.	.50
Fire Opal . Flame colored flowers. One of the best.	.35

each

Heldreichii. Lacquer-red flowers. 12 in. Summer. Greece.30
Heldreichii magnificum. Brilliant orange flowers. 12 in. Greece. A superb form.35
Lady Stratheden. Rich golden yellow flowers. 2 ft. May to August.	.35
montanum. Dwarf alpine species. Large golden flowers followed by pink whorls of seeds. Summer. Scarce.40
Mrs. Bradshaw. Double scarlet flowers on 12 in. stems.35
Orange Queen. Large glorious double orange colored blossoms.35
rivale Leonard's variety. Nodding flowers of soft old rose color. Spring. Norway.35
sibericum. Coppery-scarlet flowers. 10 in. Long season of bloom.	.25
triflorum. Dark green foliage and deep red flowers with white sepals. A striking plant. Rare. 6 in. N. A. Scarce.40

The Geums bring great brilliancy of color to the rock garden and border. With the exception of varieties marked "scarce", we offer a collection of ten Geums, **YOUR SELECTION**, for \$2.00.

GILIA longiflora. Low growing plant bearing many Phlox-like snowy white flowers. Late summer and fall. N. A. <i>New</i>35
GLOBULARIA	
cordifolia. Little evergreen tufts. Fluffy balls of soft blue flowers. 3 in. Spring.25
incanescens. Very dwarf. Lavender flower heads. Choice.35
nana. A tiny gem with violet-blue flowers. 1 in.50
nudicaulis. A good crevice plant. Fluffy heads of grey-blue. 6 in.25
trichosantha. Fine little alpine. Deep blue flowers. 6 in.35
GOODYERA pubescens (<i>Rattle-snake Orchid</i>). Ornamental foliage and white flowers. 3 in. Spring. N. A.25
GORMANIA Watsoni. Curious rosettes of succulent foliage. Golden blossoms in spring. N. A.30
GRINDELIA rubricaulis. <i>New</i> . A very showy and unusual plant with beautiful foliage and an endless profusion of clear golden Aster-like blossoms. Summer and autumn. Rare. 12 in. N. A.50
GYPSOPHILA	
acutifolia. Grey-blue foliage and clouds of pale pink flowers. 18 in. Summer.25
cerastioides. Inch high tufts of foliage bedecked with large white blossoms in spring. 3 in. Himalayas.35
fratensis. Silvery mats covered with clear pink flowers in spring. ..	.40
repens. Blue-grey mats. Pretty white flowers. Spring.25
repens rosea. Slightly larger flowers than the above of soft pink. ..	.30
HABERLEA Ferdinand Coburgi. Handsome clustered rosettes and charming lavender flowers speckled inside with gold. Spring. Balkans.	1.00
HEATH (<i>See Ericas</i>).	
HEDERA	
baltica variegata. Miniature variegated Ivy. Hardy.40
conglomerata. A quaint little Ivy with tiny twisted stems. 10 in. ..	.35
Heart shaped Ivy. A low growing Ivy with dark green heart shaped leaves. Rare.50
Helix pedata. English Ivy.50

Globularia

HEERIA elegans. An unusual, beautiful mat forming plant crowned with large glowing carmine flowers. May-July. Tender.	each .35
HELIANTHEMUM (<i>Sunrose</i>). <i>Requires full sun.</i>	
Ben Nevis. Small glossy leaves. Deep golden flowers with darker eye. Rare. 5 in.50
citrinum. Golden flowers. Spring-Autumn.25
cupreum. Orange yellow flowers in spring. 6 in.30
Fire Ball. Bright scarlet double flowers. Spring and fall.30
mutabile. Rose flowers of good form.35
New Bricks. Brilliant terra-cotta flowers. Very fine.50
praecox. Grey foliage. Large pale pink flowers. Europe.35
rhodanthum carneum. Lovely soft rose colored flowers. 12 in.35
speciosum. Mats of attractive foliage. Lovely clear pink blossoms.35
The Bride. Large cream colored flowers. Spring.35

each

Tuberaria. Small rosettes of pretty foliage covered with soft golden blossoms almost continuously.35
Wendell Rose. A very fine variety with a profusion of large rosy pink blossoms. One of the best.40
HELLEBORUS	
niger (<i>Christmas Rose</i>). Deeply cut foliage. Large glistening white flowers in early winter.75
orientalis (<i>Lenten Rose</i>). Ornamental foliage and large rosy blossoms. February to April.50
HEMEROCALLIS minor. A dwarf Day Lily from Japan. Large fragrant golden flowers in late summer and autumn.75
HEPATICA	
acutiloba. Violet blue flowers changing to white and rose. Early spring. N. A.25
triloba. Blue, rose, or white blossoms. Early spring. N. A.25
HERNIARIA glabra. Small carpeting plant of finely cut foliage with tiny white flowers in spring. Asia.25

Heuchera

Hieracium Bombycinum

Visitors always welcome.

each

HEUCHERA (*Coral Bells*).

brizoides. Fine foliage. Pale pink flowers.25
brizoides robusta. A tall form with rose-colored flowers. Long season.30
girandole compacta. A dwarf form with good foliage and dainty pink bells.30
glabra. <i>New.</i> Rare dwarf species. Small mats of pretty foliage. Airy sprays of pink blossoms. N. A.50
micrantha. Panicles of pink and white flowers in early summer. ..	.25
Pluie de Feu. Scarlet flowers over long season. 12 in. A great favorite	.35
Rosamonde. Rosy bells on branching stems.25
sanguinea var. Shirley. A splendid hybrid with bright red blossoms.	.25
villosa. Panicles of pearly white flowers. N. A.25

*Iberis Snowflake***HIERACIUM**

bombycinum. An outstanding plant of silver and gold. Glistening rosetted foliage and bright yellow blossoms. Sandy soil. Full sun. Spring. **See illustration.**40

villosum. Excellent crevice plant. Rosettes of downy silver. Brilliant golden blossoms. Spring. Sandy soil and sun.35

HORMINUM pyrenaicum. Large rosettes of scalloped foliage. Lavender flowers, 8 in. Pyrenees.25

HOUSTONIA

caerulea. Farrer calls this "A creeping treasure with a profusion of exquisite little pale blue four rayed stars." Spring-Summer. N. A.25

caerulea alba. White variety of the above.35

Japanese Garden at Cronanmere

each

HYPERICUM (*St. John's Wort*). No rock garden is complete without an assortment of these lovely golden flowered plants. Easily grown in sun or partial shade. Sandy soil.

Ascyron. Large flowers of pale gold with prominent stamens. 2 ft. Summer. N. A.35
Hookerianum. Erect growth. Deep golden flowers. Midsummer until autumn. 18 in. Himalayas. <i>New.</i>40
Moserianum. A graceful shrub with bronzy green foliage. Large golden blossoms with long stamens flecked with red. All summer and autumn. 18 in.50
olympicum. Narrow blue-grey trailing foliage. Large yellow flowers. Spring.50
patulum Henryi. Shrubby type with golden yellow flowers. Summer. China.35
repens. Trailer. Brilliant yellow flowers. 4 in. Summer. Asia. Fine rock plant.35
reptans. Trailing foliage. Showers of bright yellow blossoms.35
HYPOXIS hirsuta. (<i>Star Grass</i>). Narrow grassy foliage. Pretty yellow flowers in midsummer. N. A.25
HYSSOPUS officinalis. Aromatic herb. White and pink flowers. Summer.30
IBERIS (<i>Candytuft</i>).	
gibraltarica. Mats of dark green foliage crowded with lilac flowers. 12 in. Spring.35
gibraltarica hybrida. Showy form of the above. White to lavender-pink flowers. 10 in. Spring.35
Jordani. Dwarf form covered with white flowers in spring. A lovely alpine.40
Little Gem. Dwarf species of upright habit. Pure white flowers. ..	.25
sempervirens. White flowers. Spring.25
snowflake. Glistening white flowers. Very fine.25
Stylosa. A very rare little dwarf of compact habit. Pale pink flowers. A gem. <i>New.</i>65
tenoreana. Evergreen foliage. White flowers changing to lilac. 6 in.35
veventosicola. Clumps of dark green foliage spangled with white flowers. 3 in. Fascinating plant.35
INULA (<i>Compositae</i>).	
acaulis. A quaint rosetted plant with large stemless golden flowers. Long season. Full sun.50
ensifolia. Compact bushlets with large yellow flowers in late summer. Poor soil and full sun.25
glandulosa. Showy heads of bright yellow flowers. 2 ft. Summer Caucasus.30
glandulosa grandiflora. Large golden-orange flowers. Summer. 2 ft. Fine border perennial.35
Royleana. Handsome foliage. Rich orange flowers. Conspicuous black buds. 2 ft. Late summer. Himalayas.35
IRIS — <i>The Iris mentioned below are dwarf forms suitable for the rock garden or front of border.</i>	
arenaria. A very small Iris with large yellow flowers. Rare and choice. Mongolia.50
attica. Dwarf variety. Falcate leaves. Fragrant yellow flowers. 3 in. Rare.	1.00

	each
cristata. Lilac blue flowers. 6 in. N. A.25
cristata alba. A rare white form of the above.	1.00
chrysophylla. White or soft yellow flowers, tinted and veined lavender. 6 in.50
dichotoma. Fan-shaped foliage. Branching stems covered with lavender flowers in August and September. For border or large rock garden. 2 ft.50

*Iris and Violas*

Dixmude. New. A charming dwarf bearded bicolor. Deep red and soft blue tones.	1.50
Douglasiana. Large showy flowers, lilac to white. N. A.	1.50
fimbriata. (<i>I. japonica</i>). Flowers of lilac and gold.	1.00
Forrestii. Narrow glossy leaves. Clear yellow flowers. 18 in. Summer.	.75
Gormanii. Soft yellow flowers over long period. 12 in. N. A.75
gracilipes. A fascinating Japanese dwarf. Mauve flowers with golden crest. Partial shade.35
Hartwegii. (<i>Sierra Iris</i>). Golden flowers tinted with lavender. 12 in. N. A.90
Hookeri. A rare dwarf. Lilac flowers suffused with red.	1.50
lacustris. Many flowers of blue and gold. 3 in.50
minuta. A rare Japanese dwarf. Large golden flowers. 4 to 6 in. Spring. Scarce.	1.50
missouriensis. A native Iris of great charm having blue or variegated flowers. N. A.75
pumila atropurpurea. Large purple flowers. Spring. 6 in.35
pumila atrovioacea. A small bearded Iris with large rich purple flowers. 6 in. Spring.30
pumila caerulea. Blue flowers in May. 6 in.25
pumila cyanea. Pretty early blooming species with sky blue flowers.	.35
reticulata. Beautiful velvety purple flowers flecked with gold. Fra- grant. Early spring. 9 in.	3 for \$1.00

each

ruthenica. Fragrant violet flowers. Spring. Rare little species from the Balkans. 9 in.	1.00
sibirica. Blue flowers. June. 2 ft.25
verna. An early blooming dwarf with exquisite fragrant blue flowers. Partial shade. N. A.50
ISOPYRUM thalictoides. A plant of airy charm. Ferny foliage. Dainty pearly white flowers. Early spring. 3 in. Shade. Rare. Alps.40
JASIONE	
humilis. Rare dwarf species. Small mats of bright green. Heads of pretty blue flowers. 3 in. Pyrenees.40
montana. Heads of blue flowers on 6 in. stems. Summer. Europe. ..	.35
perennis. Fluffy heads of bright blue flowers. 12 in. Summer.25

*Kalmia Polifolia*

KALMIA polifolia. Dwarf evergreen shrub with dainty pink flowers. 12 to 16 in. N. A. Leaf soil and shade.85
LAGENOPHORA forsteri. Charming little Antarctic Daisy with fluffy white flowers. Late summer.35
LAMIUM	
maculatum. Showy variegated foliage. Pink and mauve flowers. Summer and autumn.25
maculatum album. White form of the above.35
LAVANDULA — <i>The following list of Lavandulas have proven entirely hardy in this section.</i>	
atropurpurea nana. A tiny dwarf with silvery foliage and spikes of fragrant violet flowers. Summer.35
Munstead var. A dwarf form of compact habit. Silvery foliage and little spikes of deep blue flowers.35
Spica nana compacta. Compact variety with fragrant lavender flowers.35

	each
Stoechas. Very dwarf in habit with curious little four sided flowering spikes of purple. Summer.40
vera. An old garden favorite with grey fragrant foliage and lavender flowers. Summer.25
LEDUM groenlandicum (<i>Labrador Tea</i>). A rare dwarf slow growing shrub with small leathery leaves. Clusters of charming white flowers. Spring. N. A.	1.00
LEIOPHYLLUM	
buxifolium. Small evergreen shrub. Dainty pink and white flowers. Spring. N. A.	1.00
buxifolium prostratum. Prostrate habit. Waxy pink flowers in spring.	1.25
LEONTOPODIUM alpinum (<i>Edelweiss</i>). The famous Flannel Flower of the Alps. The object of every tourist's ambition.25
LEPTOSPERMUM ericoides. Heath-like foliage. Profusion of white flowers. A good rock plant.	1.00
LESQUERELLA	
spatulata. <i>New.</i> Grey-green rosettes. Small bright yellow flowers. Spring-summer.35
stenophylla. Grey-green rosettes and bright yellow flowers. 5 in. May to July.35

Lewisia Howellii

LEWISIA—*Crevice plants for partial shade. Good drainage. Specimen plants.*

columbianum. Rosettes of spiny foliage. Sprays of pale pink and white flowers. 6 in.35
columbianum rosea. Rosy blossoms for long season. 7 in.35
Eastwoodiana. Spiny rosettes and white flowers. 6 in.50
Finchii. A beautiful species having flat rosettes of lovely pale pink flowers with darker stripe through the center of each petal. 6 in.50
heckneri. Evergreen leaves in flat basal rosette. Panicles of exquisite flowers varying from rosy pink to pale yellow. 6 in.60
Howellii. Rosettes of crinkly leaves. Lovely apricot colored flowers with stripes of rose on each petal.50
Leeana. Spiny foliage. Sprays of pale pink flowers.40

each

- rediviva.** Deciduous species having large flesh pink flowers. Fine. 3 in. .35
Tweedyi. The largest flowered *Lewisia*. Waxy apricot flowers suffused with pink. Very lovely. 6 in. 1.00

LIATRIS

- punctata.** Dwarf form. Flowering stalks covered with pinky lavender flowers in midsummer. Sun and sandy soil.25

LIBERTIA

- grandiflora.** Grassy foliage. Clear ivory white flowers of fine texture. Summer.35
Elliott's var. Clusters of lovely ivory white flowers. Early spring and summer. Sheltered position in sandy soil and full sun.40

LIMONIUM—See *Statice* on page 70.

- LILIUM Formosanum Price's var.** An alpine lily of great beauty. Large white blossoms on 8 in. stems. Summer. 1.00

LINARIA

- aequitriloba.** An effective little paving plant for shade. Lavender flowers. Spring.35
Cymbalaria (*Kenilworth Ivy*). Trailing species with dainty foliage covered all spring and summer with lavender flowers.25
organifolia. Profusion of rosy blossoms. Summer. 6 in. Pyrenees. .35

LINUM

- alpinum.** Semi prostrate form. Large sky blue flowers all summer. .35
austriacum. Rich clear blue flowers on 6 in. stems. Rare and fine. .40
capitatum. Heads of bright yellow flowers. Summer.50
flavum. Golden flowered Flax. 9 in. Summer.35
monogynum. Beautiful species. Large white flowers all summer. New Zealand.50
Muelleri. Rare species. Yellow flowers. Corsica.35
narbonense. Six Hills var. Beautiful dusky blue flowers. Long season of bloom. One of the best.35
perenne. Delicate blue-grey foliage. Pretty pale blue flowers. All summer. An old favorite.25
perenne album. White form of the above. 18 in.25
salsoloides nanum. A treasure. Trailing mats covered with opalescent white flowers. Spring.75
viscosum. Dwarf species with fine pink flowers. 6 in. Rare. Hungary. .50

- LIPPIA repens.** New. Very effective trailer. Dainty pink flowers. Summer.50

- LIRIOPE variegata.** Variegated grassy foliage and lavender flowers in late summer. 6 in. Rare.50

LITHOSPERMUM

- angustifolium.** Small golden flowers. Fine rock plant. Sand and sun. Rare. Spring.75
petraeum (*Moltkia petraea*). Small bushlets covered with narrow silvery leaves and sprays of bright blue blossoms. Sun and sandy soil. 6 in. Choice and rare. Greece. Spring.75
prostratum Heavenly Blue. Prostrate dark green foliage. Covered all summer and early autumn with blue flowers. A very showy plant. Sun.75

- LOBELIA cardinalis.** A plant for the wild garden with scarlet flowers in autumn. 2 to 3 ft. N. A.25

- LOMATIUM foeniculaceum.** Finely divided grey foliage and golden blossoms in early summer.35

Pool at Cronanmere

LOTUS

- corniculatus.** A beautiful little trailing plant covered in spring and early summer with bright golden flowers. Useful for paving, walls, and dry places in the rock garden.35
- corniculatus fl. pl.** Double flowering form studded with bright red buds and golden blossoms. Very effective.40

LYCHNIS

- alpina.** Pink flowers. 2 to 3 in. Arctic regions.25
- Arkwrightii.** Flame colored flowers on 6 in. stems.25
- Flos-cuculi.** Panicles of rosy pink flowers. N. A.25
- fulgens.** Dwarf close-growing foliage. Clusters of bright scarlet flowers. Siberia.30
- Lagascae rosea.** Dwarf Alpine with rose-pink flowers.30
- Viscaria splendens fl. pl.** Large rose colored double blossoms in early spring. 12 in.30

*Malvastrum Coccineum***LYSIMACHIA**

- ciliata.** An attractive shrub with bright yellow flowers. All summer.50
- Nummularia (Moneywort).** Creeper with glossy ovate leaves. Golden flowers in summer. N. A.25

	each
MALVASTRUM coccineum. Low mats of silvery grey pinnately lobed foliage. Salmon pink flowers. A valuable addition to the sunny rock garden and for walls. N. A. See illustration.50
MARRUBIUM vulgare. Aromatic herb white flowers in summer. N. A.	.30
MAZUS reptans. A dense little carpeter with tiny green foliage studded with orchid-like flowers in spring. A good paving plant. Sun or shade.25
MENTHA	
piperita. (<i>Peppermint</i>). Aromatic herb. Spikes of flowers. Europe.	.30
Requieni. Miniature creeper with mint scented leaves. Tiny lavender flowers. Shade.35
MENZIESIA (<i>St. Dabeoc's Heath</i>).	
polifolia. Evergreen Heath-like shrub. Rosy bells. 12 in. Europe. . .	.65
polifolia alba. A lovely white form of the above.65
MERIOLOX serrulata. (<i>Prairie Primrose</i>). Glossy foliage with rosy stems and brilliant yellow flowers all summer. Sun. Choice. N. A.	.40
MERTENSIA — <i>These dwarf Mertensias have fine color and a graceful dainty habit of growth unlike the larger coarser species.</i>	
echioides. Rich blue flowers on 6 in. stems. Summer. Rare.50
horneri. Rare dwarf species. Beautiful blue flowers in early spring. N. A.50
lanceolata. Downy foliage. Lovely clear blue flowers. Long season of bloom. 6 in. N. A.50
oblongifolia. Narrow blue-grey foliage. Blue flowers in crowded clusters on 10 in. stems. N. A.75
pulchella. Drooping clusters of blue flowers, sometimes tinted pink. Choice. 8 in.50
MESEMBRYANTHEMUM vittatum. (<i>Alionopsis</i>). A really hardy form. Crowded succulent leaves. Golden flowers, red centers. An interesting and unusual plant for crevices.75
MICROMERIA	
dalmatica. Fragrant herb with attractive foliage. Lavender flowers.	.25
rupestris. Aromatic herb. White and lavender flowers. 12 in. Europe.	.30
MIMULUS	
langsdorfi. Bright gold flowers with purple lip. 6 in. Spring. N. A.	.35
Lewisii. Pale rose pink flowers with yellow throat. 12 in. Summer.	.25
moschatus. Creeping plant with close growing foliage and a profusion of yellow flowers. Summer. Hardy.25
MISCANTHUS variegatus (<i>Eulalia variegata</i>). Rare dwarf species forming small clumps of variegated grassy foliage. 6 in.35
MITCHELLA repens. (<i>Partridge Berry</i>). Evergreen creeper for shady spots. White flowers. Scarlet fruit. N. A. Spring.25
MONARDA didyma. (<i>Bee-Balm</i>). Fragrant foliage. Scarlet flowers.	.35
MORISIA hypogaea. Flat rosettes of deeply toothed green foliage. Almost stemless golden flowers. Sun and sandy soil. Choice and rare. Corsica.50
MUEHLENBECKIA nana. Creeper. Foliage resembling Maidenhair fern. 3 in. Shade. New Zealand. Hardy.30

Please note our list of North American (N. A.) plants.

Planted Wall at Cronamere

	each
MYOSOTIS (<i>Forget-me-not</i>).	
alpestris rosea . Charming pink flowers. Spring-summer. 6 in.25
decora . <i>New</i> . Hoary grey foliage. White flowers with extra long stamens. Rare. N. A. Native.50
palustris semperflorens . Dwarf form with bright blue flowers. ..	.25
rupicola . The Queen of Alpine Forget-me-nots. Beautiful flowers of soft sky-blue. 3 in. Crevice plant. Spring. Shade.40

Edraianthus and Oenothera

NERTERA depressa . A difficult but choice little plant from New Zealand with bright green foliage. Scarlet berries in summer. Protect in winter. Shade.75
NIEREMBERGIA rivularis . The trailing Cup-Flower. Inch high carpets of dark green leaves and large white cups in great profusion. Summer-autumn. 3 in. Sun.35
OENOTHERA —A collection of <i>Oenotheras</i> will carry bloom from spring until late autumn.	
angillicola . Rosetted foliage. Procumbent stems bearing numerous large golden blossoms. Summer-autumn.35

each

caespitosa. A plant of striking beauty. Large glistening white flowers turning to blush pink. 4 in. N. A.40
fruticosa. Shining foliage. Showy yellow flowers. Summer. 14 in.25
missouriensis. (<i>Oe. macrocarpa</i>). Trailing species. Large golden blossoms. Summer. N. A.25
odorata sulphurea. Large pale yellow fragrant flowers on erect stems. 14 in. Spring.35
riparia. Graceful habit. Profusion of clear golden flowers. Summer.35
speciosa. Attractive decumbent foliage. Large showy white flowers. Summer. N. A. New. Very rare.35
speciosa rosea. Bright rose colored flowers.35
taraxacifolia. Fine dwarf species. Large white flowers changing to rose. Summer.35

*Oenothera Caespitosa***OMPHALODES**

verna (*Creeping Forget-me-not*). A charming Austrian. Blue flowers in early spring. 4 to 6 in.35

verna alba. White form of the above with larger flowers.50

ONONIS spinosa. New. Small shrub. Decumbent stems covered with soft pink flowers in midsummer. Rare and fine. Europe.75

OPHIOPOGON jaburan variegatum. Grassy variegated foliage. Racemes of pretty white flowers; violet-blue fruit. Rare. Autumn. Japan.50

ORIGANUM (*Sweet Marjoram*).

Majorana. Aromatic foliage and spikes of purple and white flowers.30

vulgare. Herb. Aromatic foliage. Lavender-pink flowers. 6 in. Summer. N. A.25

OROBUS vernus. A charming plant with satiny lavender pea shaped flowers. 6 in. Spring.40

OROPHACA caespitosa. Small tufts of silvery foliage. Lavender blossoms. A native alpine. Spring. N. A.35

OXALIS

adenophylla. Finely cut silvery foliage. Large blossoms of softest pink. 3 in. Sandy soil. Spring. Sun. Rare and choice.75
Bowieana. A handsome plant with trifoliate leaves and large rose colored flowers. Summer-autumn. 6 in.40
floribunda alba. (<i>Wood Sorrel</i>). Mats of "shamrock" foliage covered from spring until autumn with pretty white flowers. Needs winter protection.35
tropaeoides. Little mats of bronzy red foliage covered all summer and autumn with dainty yellow flowers. Paving plant.25
valdiviensis. <i>New.</i> Pretty foliage and bright yellow flowers all season.	.35
OXYTROPIS Lambertii. Low tufts of grey. Showy blossoms in shades of violet. Spring. Very fine. N. A.35
PACHYSTIMA Canbyi. A beautiful little trailing plant with glossy green foliage and waxy pink flowers. N. A.50
PAPAVER	
alpinum. Dwarf Alpine poppy. Rose, white, or yellow flowers.25
nudicaule. (<i>Iceland Poppy</i>). Delicate orange or yellow flowers. All summer.30
PARDANTHUS chinensis (<i>Blackberry Lily</i>). Spotted flame colored flowers and black seeds. Autumn. N. A.35
PARONYCHIA serpyllifolia. A good carpeting plant with dainty white flowers. Europe.25
PAROSELA enneandra. An unusual plant sending up one slender stem about 15 in. breaking into a shower of delicate green foliage. Tiny pink flowers. Summer. Rare. N. A.50
PARRYA Menziesii. <i>New.</i> A rare native Crucifer. Heads of fine pink flowers. Sand. Sun. Summer. N. A.	1.00

PENTSTEMON

There are many plants in this American genus which add greatly to the beauty of planted walls and rock gardens. They are easily grown if given good drainage and full sun or partial shade.

amethyst gracilis. A spreading form. Amethyst colored flowers. N. A.	.35
arizonicus. Glabrous foliage and purple flowers. 8 in. N. A.30
fruticosus. Evergreen shrublet from the Rockies. Large violet colored blossoms. Early summer.50
glaber. Glaucous foliage. Spikes of large clear blue flowers.40
glaucus. Large violet bells on procumbent stems. 12 in. N. A.50
Gordoni splendens. Erect spikes of deep blue flowers. 24 in.40
gracilis. Small species. Lavender flowers. Summer. N. A.40
grandiflorus. Large, handsome pale lavender-blue flowers. 2 ft. N. A.	.50
grandiflorus hybrids. (<i>Pink Shades</i>). Handsome border plants. Summer.35
hirsutus. Downy foliage and beautiful blue flowers. 18 in. N. A. ..	.35
humilis. Dwarf shrubby growth. Blue and white flowers. N. A. Spring.	.40
procerus. Close mats of bright green foliage. Deep blue flowers. May-July. 8 in. N. A.35
pubescens. Pale blue, mauve, and white flowers. Summer. 18 in. N. A.	.25
pygmaeus. Dwarf habit. Clear blue flowers with white lip.35
rupicola. Beautiful little shrub of dwarf compact habit. Bright red flowers. 4 in. Spring. N. A.50

each

- Scouleri.** Fine violet flowers. Farrer says "The most magnificent of all shrubby Pentstemons."60
- superba.** Tall form with rainbow hued flowers. A beautiful plant for rock garden or border.50
- tolmei.** An enchanting dwarf. Dark blue flowers. Rare.60

*Pentstemon*

- PETALOSTEMON purpureum.** *New.* Linear leaves. Fragrant balls of violet colored flowers. 10 in. N. A.35

PHACELIA

- leucophylla.** Glistening white downy foliage. Lovely lavender flowers with silvery sheen. 8 in. Spring. N. A. *New.*50
- sericea.** *New.* Rosettes of silver grey deeply cut leaves. Clusters of bright blue flowers with remarkably long stamens tipped with bright yellow anthers. One of the best northwest natives. 8 in. .. .75

PHLOX—Alpine and rock garden species and varieties.

each

amoena variegata. Prostrate form. Effective variegated foliage. Mauve flowers. Choice and very rare. N. A.75
bifida. Non-spreading compact form. Masses of lovely white to lavender star-shaped flowers.35
brittonii alba. An unusual form always in great demand. Tiny bushlets covered with star-shaped white flowers. Compact habit.25
bryoides. A rare high alpine species having dense little cushions of woolly foliage studded with ample snowy white blossoms.75
Camla. (<i>P. Camlaensis</i>). Introduced from the famous "Camla" Gardens, England. Considered of rare beauty and merit. Large salmon pink flowers in spring continuing throughout most of the summer. Trailer. Very rare.75
cowardi. Trailer with bright green foliage and rose colored flowers. Spring. Non-invasive. A good wall plant.25
divaricata. Prostrate foliage. Clusters of pale violet blue flowers. N. A.25
nivalis. Terminal umbels of shining white flowers. Rare and choice.75
stolonifera cowardi. Improved form of the type. Fine mauve blossoms on trailing stems.30
s. reptans. Evergreen creeper with rose-pink flowers on 2 in. stems.25
subulata apple blossom. Masses of pale pink blossoms. Spring.25
s. Blue Hills. Dark green foliage. Clear blue flowers.25
s. vivid. Compact form with salmon-rose flowers.25
s. G. F. Wilson. Always a favorite. Masses of powder blue blossoms in spring. Splendid for edging borders or paths.25
PHLOX — <i>Tall varieties for the herbaceous border. Extra fine colors.</i>	
Count Zeppelin. Large white flowers with red eye. Tall. July-August.35
General von Heutz. New. Brilliant salmon flowers shading to white in center. Summer.35
Joan of Arc. Tall variety with white flowers. Summer.35
Koenigshofer. New. Orange red blossoms. July-August.35
PHYTEUMA (<i>Campanulaceae</i>). <i>These rare little plants should be in every rock garden. Their unique habit of growth and flowers are interesting as well as beautiful. Sand and leaf soil.</i>	
hemisphaericum. Heads of charming soft blue flowers. 4 in. Alps.35
orbiculare. Another rock-loving species with balls of blue on 8 in. stems. Summer.35
Scheuchzeri. Violet-blue flowers on 6 in. stems. Early summer.25
Wagneri. Lavender flowers. Spring.35
PLATYCODON	
grandiflorum. Handsome border plant with bell-shaped deep blue flowers.25
Mariesii. A dwarf form. Large powder blue flowers. Mid-summer. Asia.30
PLUMBAGO Larpentae (<i>Ceratostigma plumbaginoides</i>). A useful fall blooming plant with highly colored foliage. Sapphire blue flowers.25
POLEMONIUM (<i>Jacob's Ladder</i>).	
album. A fine form having lovely white flowers larger than the type. Spring-summer. Rare.40
carneum. A beautiful plant with good foliage and flowers varying from pink to cream. Summer. N. A.35
cashmerianum. New. A rare plant from Cashmir. Beautiful blue flowers. 12 in.50
confertum. Dense clusters of fragrant trumpet-shaped blue flowers. 6 in. Rocky Mts.35

	each
humile. The smallest of the family forming neat tufts of finely feathered foliage and charming soft mauve flowers over a long period. 6 in.40
humile Mt. Hood. Rare dwarf form. A most engaging plant. Deeply cut foliage. Clear blue flowers.50
reptans. Shown blue flowers. 12 in. Spring.25
reptans himalaicum. <i>New.</i> Finer than the type with larger flowers of deeper color.50
Richardsonii. Handsome species of taller habit with large bright blue flowers. Summer. Border.30
POLYGONUM	
affine. Low clusters of pale green foliage. 6 in. stems covered with spikes of clear pink flowers. Late summer.25
vaccinifolium. Choice little trailer with reddish stems and small bright green foliage covered with spikes of soft pink flowers in late autumn.35
POTENTILLA (<i>Rosaceae</i>).	
atrosanguinea Gibson's Scarlet. A beautiful hybrid with silvery foliage and brilliant scarlet flowers.50
calabra. Ornamental silvery foliage. Golden blossoms. Spring.25
caulescens. <i>New.</i> Silvery foliage. Sprays of white flowers. 6 in. Lime loving plant.50
cinerea. Dainty creeper with lovely yellow flowers. Spring and autumn. 1 in.35
fragiformis. Large velvety grey-green leaves crowned with golden flowers in spring. Siberia. 8 in. A highly ornamental rock plant. ..	.35
nepalensis Roxana. Bright salmon colored flowers. 12 in.30
nevadensis. Prostrate form. Small yellow blossoms. 4 in. Spain. ..	.35
reptans. Excellent ground cover. Pretty trailing foliage. Profusion of dainty yellow flowers all summer-autumn.25
Salmon Beauty. Showy salmon colored flowers in summer. 18 in. ..	.35
Tonguei. A real treasure. Trailing stems. Apricot colored flowers with dark centers. Summer-autumn.35
tridentata. One of the best. A low growing species with attractive foliage having lovely autumn tints. White flowers. Spring. N. A. ..	.25
PRATIA angulata. Creeping mats of tiny foliage. White flowers followed by purple berries. New Zealand.35

PRIMULAS

Primulas are very easily grown if given shade and a rich loam containing well aged cow manure and sand.

acaulis alba fl. pl. A beautiful hybrid with white blossoms resembling small double roses.50
acaulis lilacina fl. pl. Lavender form of the above. 3 in.50
acaulis Heavenly Blue. Large blue flowers.40
acaulis hybrids. A splendid strain of hybrids with extra large flowers in various shades of rose, blue and yellow.35
Auricula hybrids. Large flowers in beautiful pastel colorings.25
A. Storries Invincible. Gorgeous form of above.35
Beesiana. Whorls of velvety purple flowers with yellow eye. 3 for 50c	
Blue Beauty. Large beautiful blue flowers. <i>New.</i>35
Bulleyana. Whorls of rich orange-yellow flowers. China. 3 for 50c	
Bulleyana hybrids. Lovely flowers in shades of rose, salmon, apricot, etc. 3 for 50c	

each

cashmiriana hybrids. Large heads of mauve flowers. 10 in. 3 for 50c	
Clusiana. Rosettes of glossy pointed leaves. Glowing carmine flowers with white centers. 5 in. Lime. Very rare species.50
cortusoides. Fine species with lavender blossoms. Spring and summer.	3 for 50c
denticulata. Fine large heads of lavender. A most striking plant.	3 for 50c
denticulata alba. White form of the above.35

*Primula Sieboldii*

denticulata rubra. Rosy form of the above.35
duplex Hose-in-Hose. A semi-double form with yellow flowers. Quaint and charming.35
elator. (<i>The true Bardfield Oxlip</i>). Finest strain of Bunch Primrose. Large flowers in shades of yellow. Europe.30
Golden Beauty. <i>New.</i> Beautiful golden flowers.40
Helenae hyb. Large rose flowers in early summer.35
helodoxa. A beautiful plant for moist shade. Whorls of large rich yellow flowers. China. 24 in.75

60	CRONAMERE ALPINE NURSERIES, INC.

Lissadell hybrids. Soft vermilion flowers.35
hybrida Red Hugh. A good form with large scarlet flowers.50
japonica American Beauty. Rose colored flowers. Long succession of bloom. 12 in. Spring and summer. Scattered blooms in autumn.35
japonica atrosanguinea. Very showy crimson variety. 18 in.35
japonica hybrids. White, pink, and red. Spring and autumn.30
Juliae. Very dwarf. Profusion of claret colored flowers with golden eye. Shade. Leaf soil. Spring and early summer.35
Juliae hybrids. Larger flowers than the type of lovely glowing purple.50
kleynei. New. Large heads of rich golden flowers shading apricot towards the center on 10 in. stems.65
lichiangensis. Rare. Large leaves. Violet colored flowers. China. ..		.35
Littoniana. A striking species with 10 in. spikes of lavender flowers. Rare and lovely.50
Lodge. Hybrid of P. Juliae. Extra large scarlet flowers. ..	3 for 50c	
microdonta alpicola. The Moonlight Primula. Fragrant yellow flowers. Tibet.35
Munstead Giants. Very large flowers in various colors. ..	3 for 50c	
officinalis hybrids. Fragrant flowers varying from pink to mahogany in color.	3 for 50c	
pedemontana. New. Rare species with beautiful wide-open flowers of clear pink. 3 in.75
polyanthus hybrids. A fine strain. Flowers in shades of white and yellow.	3 for 50c	
pulverulenta. Bog Primula. Rich crimson flowers. 18 in. ..	3 for 50c	
pulverulenta Mrs. Berkeley. Blush pink flowers with golden center.40
Queen of Heaven. Acaulis type having large sapphire blue flowers, yellow centers.50
rosea grandiflora. A well known gem from the Himalayas. Beautiful bright rosy flowers. Choice.50
Sieboldii. Scalloped oval leaves. Umbels of gorgeous pink, white or crimson flowers. Spring. One of the finest.75
suffrutescens. New. Notched leaves. Brilliant pink flowers with golden centers. N. A.50
Veitchii. New. Umbels of fine rosy flowers. 12 in.50
veris hybrids. Drooping flowers in various fine colors. Spring.	3 for 50c	
vulgaris. Pale yellow blossoms. True English primrose.35
Wanda. A beautiful hybrid form of P. Juliae. Rich purple flowers. Always in demand.50

PRIMULAS FOR NATURALIZING

The great demand for Primulas to be used in naturalistic effects along woodsy paths, around pools, as well as in the rock garden has led us to propagate an unusually large number of these beautiful plants, and we are now able to offer the following varieties, WHILE THEY LAST, AT THE AMAZINGLY LOW PRICE OF \$1.25 FOR 10.

DESCRIPTIONS IN PRECEDING LIST

Beesiana	cortusoides	officinalis hybrids
Bulleyana	Lodge	polyanthus hybrids
Bulleyana hybrids	Munstead Giants	pulverulenta
cashmiriana hybrids	denticulata	veris hybrids

PRUNELLA	
Webbiana alba. Spikes of white flowers over mats of dark green foliage. Summer.30
Webbiana grandiflora. Dense spikes of lavender flowers. 6 in. Long season.25
Webbiana rosea. Small mats of dark green foliage covered in summer with spikes of rosy flowers. An excellent rock plant.35
PULMONARIA	
angustifolia azurea. Ornamental foliage. Sky blue flowers in early spring. 8 in.35
saccharata. Foliage of dark green marbled with silver. Rich blue flowers. 12 in.35
saccharata Mrs. Moon. Silver and green marbled foliage. Bright salmon-pink flowers shot with blue. Rare. Spring.65

Ramondia Pyrenaica

PUTORIA calabrica. A low growing dwarf shrub covered from July to October with rosy-pink flowers resembling <i>Daphne cneorum</i> . Lime. Sun.85
PYRETHRUM Tchihatchewii. (<i>Chrysanthemum Tchihatchewii</i>). See page 21.	

62	CRONAMERE ALPINE NURSERIES, INC.	
		each
RAMONDIA pyrenaica.	Deep green crinkled leaved rosettes. Exquisite lilac flowers touched with gold in the center. Spring.	1.00
RANUNCULUS		
montanus.	Ornamental foliage and large golden flowers in spring. A fine form.50
repens.	A creeping plant with fine foliage and bright yellow flowers. Useful ground cover.25
RAOULIA australis.	Little mats of glistening silver. Sandy soil and full sun. Rare. New Zealand.35

DWARF RHODODENDRONS

Dwarf Rhododendrons add more beauty to the spring pageant of bloom than any other shrub in the rock garden. The flowers last well and are of unusual brilliancy although the colorings are delicate. They are entirely hardy and should be planted in shade in a soil containing peat, sand, and stone chips. The following list are of easy cultivation and present no difficulties to the amateur.

Rhododendron Racemosum

atlanticum.	A dwarf deciduous form having white flowers suffused with pink. Very fragrant. Splendid for rock gardens. N. A.	1.00
chryseum.	(<i>Series Lapponicum</i>). A very dwarf species from the mountains of Yunnan. The aromatic leaves are about 1/2 in. long. Bright yellow flowers of good size. Spring.	2.25

each

ciliatum. (<i>Series Maddenii</i>). Dwarf compact shrub with downy leaves. Rose pink flowers. 24 in.	1.50
fastigiatum. (<i>Series Lapponicum</i>). A charming small leaved dwarf with flowers varying from lavender-blue to violet. Yunnan.	1.75
ferrugineum. (<i>Series Ferrugineum</i>). The famous Alpenrose of the Swiss Alps. Glossy leaves about 1 in. long and terminal racemes of lovely rosy pink flowers in spring.	1.50
hippophaeoides. (<i>Series Lapponicum</i>). Grey leaves and masses of pale blue flowers. 18 in.	2.25
impeditum. (<i>Series Lapponicum</i>). Dwarf, compact habit. Grey foliage with charming lavender flowers. Yunnan.	1.75
keiskei. (<i>Series Triflorum</i>). A low compact shrub. Pale golden flowers.	1.50
mucronulatum. (<i>Series Dauricum</i>). An Asiatic dwarf of deciduous habit. Bright pink flowers.	2.50
oleifolium. (<i>Series Virgatum</i>). Somewhat resembling <i>R. racemosum</i> in habit with lovely clusters of pale pink flowers. Yunnan.	1.75
racemosum. (<i>Series Virgatum</i>). Exquisite pale pink flowers. China.	1.50
scintillans. (<i>Series Lapponicum</i>). Flowers of glowing purple-violet. China. 2-3 ft.	1.50
virgatum. (<i>Series Virgatum</i>). An erect-growing little species bearing large bell-shaped rose colored flowers. Sikkim. 1 to 3 ft.	2.25
Wilsoni. Compact dwarf species. Lavender-rose flowers. Very fine.	2.25

ROSA

foliolosa. Dwarf Rose with single white or pale pink blossoms. Summer-autumn. N. A.50
Lawrenceana. Dwarf variety with semi-double deep pink flowers. ..	1.00
nitida. Bright rosy-red flowers. 18 in. N. A.50
polyantha Baby Crimson. Profusion of semi-double crimson flowers. All summer and autumn.	1.00
polyantha Erna Teschendorf. Dwarf Rose. Beautiful lacquer-red flowers. All summer and autumn.	1.00
polyantha nana. Dwarf. Pink semi-double blossoms.	1.00
Prairie Rose. Large fragrant pink flowers. 16 in.	1.00
Roulettii. The smallest alpine rose in the world, seldom exceeding 6 in. in height. Tiny evergreen foliage and pretty pink blossoms all summer and autumn. True form.75
spinosissima. (<i>Burnett Rose</i>). Dwarf species with creamy-white flowers.75

ROSCOEIA cautlioides. Iris-like foliage. Soft yellow flowers resembling Baby Gladiolas. 15 in. Rare and choice. Late summer.50
--	-----

ROSMARINUS (*Rosemary*).

officinalis. Aromatic herb. Light blue flowers. Prune back each year.30
prostrata. Prostrate form of the above. Rare.40

RUELLIA occidentalis. Large violet flowers on 8 in. stems. Summer.35
--	-----

SAGINA subulata. Mossy ground cover for shade. White starry flowers. Spring.30
--	-----

SALOMONICUS chiliensis. A small Irid with golden blossoms over a long period. Rare.50
---	-----

SALVIA officinalis. (<i>Garden Sage</i>). Purple flowers. Fragrant foliage.30
---	-----

SANTOLINA pinnata. Compact habit. Green foliage. Pale yellow flowers in summer. 10 in. Rare.35
--	-----

each

SAPONARIA

- caespitosa.** Close growing foliage crowned with rosy buds and bright pink flowers. 3 in. Rare.50
- ocymoides.** A pretty trailer with masses of pink flowers in spring.25
- semperflorens nana.** A very dwarf form. Resembles *S. ocymoides*, but is not a trailer. Profusion of bright pink flowers from spring until autumn. An outstanding and showy plant. *New.* Scarce.60

SATUREA

- montana.** A small aromatic shrub from Dalmatia. Pretty mauve flowers in late summer. 6 in.35
- pygmaea.** A tiny shrub with dark green foliage. Soft mauve flowers in late summer. Fine rock plant.40
- stenophylla.** *New.* Dwarf little bush with aromatic foliage. Pretty rose blossoms. Summer.50

SAXIFRAGA

(Saxifragaceae). No rock garden is complete without a collection of these interesting and beautiful alpiners. Their requirements are good drainage and a soil composed of leafmold, loam and sand; partial shade in the Eastern section of this country. Top dress with soil mixture in spring and autumn. Light covering of salt hay in winter.

EUAIZOONIA GROUP (*Encrusted Varieties*). *Rosettes of narrow spatulate leaves, encrusted with lime in most cases. Extremely ornamental in the rock garden.*

- Aeizoon balcana.** Pale green leaves. White flowers dotted with crimson.35
- Aeiz. rosea.** Silver beaded rosettes. Sprays of pink flowers.35
- cochlearis.** Tiny silvery rosettes of tongue-shaped leaves. White flowers.50
- cochlearis minor.** Tiny domes of silver. White flowers.50
- Elliott's silver.** Splendid hybrid with silvered rosettes in clustered form.50
- Hostii.** Creamy white flowers spotted with pink. Europe.50
- lingulata Bellardi.** Heavily silvered narrow leaves. White flowers.50
- longifolia.** Handsome rosettes of silvery grey. Tall spires of white blossoms. "Queen of the Saxifrages." Pyrenees. 1.00
- Macnabiana.** Fine white flowers flecked with pink.35
- mixed encrusted varieties.** Fine hybrids. 6 for \$1.00

KABSCHIA GROUP (*Cushion Rockfoils*). *Half sunny situation, in gritty soil and leafmold.*

- apiculata.** Green spiny foliage. Yellow blossoms. Spring.35
- Burseriana magna.** Compact little grey spiny cushions with extra large glistening white flowers. Spring.75
- Ferdinandi-Coburgi.** Neat cushions of spiny foliage. Bright yellow flowers. Spring.40
- Godseffi.** Blue-grey rosettes. Yellow flowers. Spring.50
- Haagei.** Dark green spiny cushions. Golden flowers.50
- sancta.** Bright yellow flowers on dark green cushions. Spring.35

DACTYLOEIDES GROUP (*Mossies*). *Mossy mats. Very effective in shade. Require leaf soil and sand.*

- ceratophylla.** (*Tiny Staghorn*). Green foliage and pure white flowers.35
- decipiens alba.** Finely cut foliage. Charming white flowers. Spring.30

each

- Guildford seedling.** Bright crimson hybrid.35
H. S. Stokes. Rosy pink flowers.35

DIPTERA GROUP (*Two Winged Rockfoils*). *The members of this group are natives of Japan and China.*

- sarmentosa.** Ornamental marbled foliage. Showers of pink and white flowers. Full shade.35

Sax. Burseriana Magna

ROBERTSONIA GROUP (*London Pride*). *This section embraces the well known London Pride and its immediate relatives. Shade and leaf soil.*

- Andrewsii.** Rosettes of green foliage. Pink and white flowers. No lime. .75
cuneifolia. Dainty white flowers on 6 in. stems. Alps.
umbrosa. (*London Pride*). Fine rosettes. Sprays of pink flowers.35
U. Primuloides. Smaller form of above.40

MEGASIA GROUP (*Large Leaved Rockfoils*). *These have large ornamental foliage. Effective as accent notes in the rock garden. Sun or shade.*

- Cordifolia.** Large leaves richly tinted in autumn. Heads of rosy pink flowers. Spring.35
megasia hybrids. Fine strain. Large glossy leaves. Showy pink flowering spikes. Spring.35

SCABIOSA

- caucasica.** Large lavender flowers on 10 in. stems. Summer. Caucasus. .35
caucasica alba. White flowers all summer. Caucasus.35
graminifolia. Small clumps of grassy foliage. Lavender flowers on 6 in. stems.50

- SCHIZOSTYLIS Mrs. Hegarty.** *New.* Late flowering bulbous plant. A profusion of satiny pink flowers on 12 in. stems. August to November. Choice.50

SCUTELLARIA

alpina. A spreading plant 8 to 12 in. high with purple and white flowers. Summer.35
angustifolia. Mats of green foliage and deep blue flowers. Summer.35
baicalensis var. coelestina. Erect habit. Whorled sprays of lovely clear blue flowers. 18 in. Rare.50
indica japonica. Delicate soft grey foliage and charming blue flowers. Spring and autumn.40
orientalis. Semi-prostrate grey-green foliage and yellow flowers. ..	.35

SEDUM—*These are supposed to be sun loving plants, but many of them do just as well in partial shade.*

acre. Evergreen carpenter. Yellow flowers.25
acre elegans. Attractive carpenter for paths. Bright yellow flowers.25
acre golden. Neat golden mats.25
acre minus. A miniature of S. acre. Yellow flowers.30
aizoon var. floribunda. Rare. Tall and narrow leaved. Cymes of golden flowers.35
aizoon var. Maximowiczii. A striking and unusual plant. Erect habit. Cymes of yellow flowers. 14 in.30
album. White flowers on 6 in. stems. Summer. Europe.25
altissimum. Blue green foliage. Yellow flowers on 9 in. stems.25
anglicum. Evergreen mats. Blush flowers. Summer. Europe.25
corsicum. Tiny grey green foliage. Pink flowers. 2 in.25
crassipes. Yellow to white flowers. 6 in. Asia.35
dasyphyllum. Small blue foliage. Sprays of rosy stars.25
divergens. A beautiful and unusual species. Small green rosettes. Bright yellow flowers. N. A.30
Ellacombianum. Rare Japanese species. Mats of spiny leaves. Compact clear yellow flowers. Rare.40
Ewersii. Blue-grey leaves. Rose colored flowers. Late summer. 1 ft. Himalayas.35
Fabaria. Attractive creeping foliage. Rosy-white blossoms in July. 12 in. Rare. Europe.40
Fosterianum. Creeping evergreen mats. Golden flowers. 10 in. stems.30
gracile. White flowers with red anthers. Asia.35
Hayesii. A free-flowering compact form of S. Ewersii. Rose colored.35
hispanicum. Blue-grey foliage. White flowers. 6 in. Switzerland.25
kamtschaticum. Effective foliage. Trailer. Golden flowers. Summer.25
kamtschaticum variegatum. A glory of orange-yellow all summer. ..	.35
lineare variegata. Pale green variegated foliage. Yellow stars. 6 in. Japan. Rare type.35
lydium. Bright green carpets turning red in autumn. White flowers.25
Maximowiczii purpureum. Rare. Very showy tall form with reddish purple foliage. White flowers. Autumn.35
Middendorffianum. 4 in. reddish brown foliage and cymes of yellow.25
mixed varieties. Our selection.	10 for \$1.00
murale. Purple foliage. White and pink flowers.25
Nevii. Pale green rosetted form. White flowers.25
oreganum. Funny little paddle shaped leaves which turn bronzy red. Large cymes of golden flowers.35
oregonum. Green rosetted foliage. Pink flowers.35
oreganii. Grey rosetted foliage. Yellow flowers. Rare.35
pulchellum. Green foliage turning red in summer. Rosy flowers. ..	.35
reflexum. Creeping evergreen mats. Yellow flowers.25

each

reflexum minor. Small form. Yellow flowers.30
rupestre. Blue-grey leaves. Golden flowers.30
sexangulare. Bronzy green mats. Golden flowers. 2 in.25
Sieboldii. Lovely silvery-blue foliage. Trailing variety. Bright pink flowers. Autumn. Shade.30
Sieboldii variegata. A rare form. Leaves handsomely variegated. Terminal heads of pink flowers in autumn.50
spathulifolium. Evergreen rosettes of curious shape. Yellow flowers.35
spathulifolium rubrum. Red foliage. Bright yellow flowers. 'Choice. ..	.50
spectabile. Erect growing species from Japan. Large flat heads of mauve colored flowers. 12 in. September.25
spectabile brilliant. Red flowering form of the above.35
spectabile variegata. Variegated foliage. Rare white form of the above.50
spurium. A splendid ground cover. Bright pink flowers.25
stribyrni. Bright yellow flowers in July. 3 in. Rare.35
tenuifolium. Mats of pale green. White star shaped flowers. Rare.35
ternatum. Pure white flowers. Rare. N. A.35
yosemitense. Rosettes of silvery blue. Golden flowers. 4 in.35

*Sempervivums*

SEMPERVIVUM—*Interesting plants of easy culture for sun or partial shade.*

acuminatum. Small type. Pale green sharp pointed rosettes.25
Alberti. Pale green rosettes. Rose colored flowers. Rare.25
Alpha. Very fine and rare type. Large rosettes.35
arachnoideum. Pale purple flowers. Cobwebby rosettes.25
arachnoideum minimum. Smallest of the cobweb types.35
arachnoideum rubrum. Cobwebby rosettes. Dark pink flowers.35
arenarium. Small green rosettes. Cream colored flowers on 2 in. stems.25
atroviolaceum. Very large rosettes tipped with purple.50
Beta. Rare. Large rosettes of peculiar habit. Very interesting.35

	each
blandum. Reddish rosettes edged and tipped with green. Rosy flowers.	.35
braunii. Small rosettes of pointed leaves. Bright yellow flowers.	.25
calcareum. Large glaucous-blue rosettes; distinct purple tip.35
Doellianum. Soft pink flowers.25
dolomiticum. Red tipped fresh green rosettes.35
Erythraeum. <i>New.</i> Small flat rosettes of soft greyish-purple leaves. Purple-red flowers.35
Fauconnetti. Small rosettes. Bright rose flowers.25
fimbriatum. Small rosettes. Bright pink flowers.25
glaucum. Large rosettes of glaucous foliage. Tipped red-brown. Red flowers.25
globiferum. Tight green rosettes tipped with red.25
Greenii. Large green rosettes.25
Hausmannii. Rosettes of green foliage tipped with brown. Rosy-red flowers. Tyrol.50
hirtum. Emerald rosettes. Clear yellow flowers. Alps.25
juratense. Very flat rosettes. Bright green leaves with outer edge reddish brown. Very fine.35
Lown's No. 60. Medium rosettes suffused with red.35
Mettenianum. One of the prettiest. Rosettes, grey green, tipped with red. Rose flowers.35
Minto seedling. Very rare hybrid. Large rosettes, tinged with red.	.50
Pittonii. Medium-sized downy rosettes. Pale yellow flowers. Scarce.	.35
pyrenaicum. Pale rose flowers. Pyrenees.25
mixed varieties. Unnamed. 10 for 75c	
Reginae-Amaliae. Large bronze-purple rosettes. Heads of small pale yellow blossoms on 10 in. stems.75
rubicundum. One of the largest and finest colored of the family. Rosettes tinted deep red.50
soboliferum. Pretty golden rosettes.25
tectorum. (<i>Roof Houseleek</i>). Rosettes 3 to 4 in. across. Pink flowers. Large clumps with many rosettes.40
tectorum var. modestum. Dense rosettes, dark green and purple. ..	.35
verlotti. Pale green with slightly red tips. Red blossoms.65
SENECIO antennarifolius. Silvery foliage with brilliant golden blossoms. Spring.50
SHORTIA galacifolia (<i>Oconee Bells</i>). Glossy leaves and fringed white bells. N. A. Spring.35
SIDALCEA	
campestris. A charming plant with dainty pink flowers. 12 in. Summer. N. A.40
hybrida. Panicles of satiny mauve flowers. All summer. 15 in.35
Neo-Mexicana. A western native with lovely mauve flowers flushed with pink. 14 in.35
SIDERANTHUS spinulosus. Low growing bushy plants. Grey foliage. Masses of golden Asters. Very attractive. Summer. N. A.35
SILENE	
alpestris grandiflora. Showers of white flowers with fringed petals. 6 in. Summer.35
Elizabethae. Rare dwarf species with large mauve flowers. Alps.35
Lerchenfeldiana. Trailer with a profusion of clear pink flowers. Summer. Balkans.35
maritima. Blue-grey foliage. Pretty white flowers. Long season.25

each

maritima fl. pl. Glauous foliage. Large crinkled white blossoms. Summer.35
maritima rosea. A very attractive pink form of the above.35
Saxifraga. Masses of white flowers in summer.35
Schafta. Showy rose-colored flowers in late summer. 6 in. Caucasus.25

SISYRINCHIUM

anceps. Grass-like tufted leaves and deep violet blue flowers.35
californicum. Tufts of grassy foliage and clear yellow flowers in June. Sand and shade.25
gramineum. Delicate blue flowers. Summer.25
grandiflorum. Bright purple nodding flowers on 8 in. stems. Spring.35
pachyrhizum. Good form with golden flowers.25

*Section of Planted Wall***SOLDANELLA**

alpina. A lovely little alpine with fringy violet bells in early spring. 3 in. Shade.50
montana. A larger form of the above.	1.00

SOLIDAGO

A collection of these rare and unusual dwarf Solidagos are always of great interest as well as giving much gaiety to the garden through the season.

algida. A tiny gem having golden flowers in early spring. The smallest of the tribe. 3 in. Rare and choice. N. A.50
bellidifolia. Rare dwarf with golden flowers.40

	each
Cutleri. A true alpine. Compact tufts of dark green foliage. Bright golden flowers. 6 in. Summer. Rare.35
decumbens. Rosetted foliage with procumbent golden flowers.35
glaberrima. Dwarf. Panicles of golden yellow flowers in late summer and autumn.35
nemoralis. Dwarf habit. Grey foliage. Heads of yellow flowers. Late summer. N. A.35
Wardii. Another dwarf form with smaller panicles of fragrant yellow flowers. Late summer.25
SPARAXIS pulcherrima. (<i>Angel's Fishing Rods</i>). Bulbous plant with Iris-like leaves and arching stems ending in beautiful lavender bells. Hardy.35
SPIREA bullata. A dwarf from Japan. Small crinkled foliage and little flat corymbs of rosy flowers in summer. 12 in. Choice and rare.	1.00
STACHYS	
corsica. Neat little mats of emerald green. Profusion of pale pink flowers. Summer. Sun.35
lanata. Velvety white foliage. Lavender flowers. 12 in. Caucasus. Summer.25
STATICE	
Armeria. Grassy foliage and pink flowers. Summer. N. A.35
auriculaefolia. Sprays of dainty blue flowers. Summer. Europe.40
globulariaefolia. Dwarf compact tufts of leathery leaves. Sprays of dainty mauve flowers. Summer.35
minuta. Small tufts spoon-shaped leaves. Delicate sprays of lavender blossoms. Rare and fine.50
stoechifolia. Dwarf form with airy sprays of dainty pale mauve flowers. Summer.40
STOKESIA CYANEA. Dwarf habit. Beautiful blue flowers. 12 in. Late summer.30
SYNTHYRIS	
alpina. Short spikes of violet-blue flowers. Spring. Very rare. N. A.	.75
rotundifolia. Neat tufts of leaves and small spikes of blue flowers. 4 in.	.35
sweetseri. Small foliage and rich violet colored flowers on 4 in. stems. Rare. N. A.35
TANACETUM vulgare. (<i>Tansy</i>). Corymbs of yellow flowers. Fragrantly scented herb.30
TANACETUS sp. Balkans. Masses of ferny-like foliage. Fluffy yellow flowers in summer. Rare.35
TETRANEURIS	
simplex. Tufts of grassy leaves. Clear golden daisies in spring. N. A.	.35
stenophylla. Clustered rosettes of silvery grassy foliage and an endless supply of golden daisies throughout summer and autumn. One of our favorite plants. N. A. See illustration.35
TEUCRIUM	
Chamaedrys. A good wall plant or for draping a large rock. Glossy dark green foliage and rosy lilac flowers in late summer.35
Chamaedrys prostratum. Dwarf form. Short spikes of lavender flowers.35

Tetraneuris Stenophylla

Note plants giving long season of bloom.

THALICTRUM

diptercarpum. A graceful plant for the background of the large rock garden. Fine foliage and arching spires of mauve and yellow flowers. 4 ft. Summer.30

glaucum. Blue-grey ferny foliage. Soft yellow flowers. 3 ft.25

minus purpurascens. A dainty dwarf with ferny foliage and charming purple flowers. Spring.25

THLASPI Jankaea. Tufted plant. Pretty fragrant white flowers. 3 in. .25

THYMUS

aureus nana. Small bushy type. Fragrant golden foliage.35

azoricus. Dark green foliage with golden tips. Rosy-purple flowers. .35

citriodorus aureus. Golden leaved lemon-scented Thymus.30

Herba-barona. The Caraway scented Thyme. Trailer.30

marschallinum. Carpeting plant with lavender flowers. 3 in.35

nitidus. Silvery-grey variety. Rose lilac flowers. 9 in. Sicily.35

Serpyllum. (*Wild Thyme*). Creeping habit. Strongly scented leaves. Purple flowers.25

Serpyllum coccineus. Crimson flowered creeping Thyme.25

Serpyllum albus. Green mats. White flowers in summer. 1 in.25

Serpyllum lanuginosus. (*Woolly Thyme*). Creeper with scented foliage. Purple flowers. N. A.25

TIARELLA cordifolia. (*Foam Flower*). Tufts of attractive foliage. Racemes of creamy-white flowers. 12 in. Spring.30

TOWNSENDIA

exscapa. Low rosettes of narrow leaves. Large daisies of white or pink. Full sun. Sandy soil. N. A. Spring.35

grandiflora. *New.* Larger form of the above.40

sericea. A smaller form. Very scarce. N. A.35

TRADESCANTIA

bracteata. Mauve and pink flowers. Summer. Sun. 12-14 in.25

brevicaulis. Large rosy-colored flowers. Summer. Sun.25

occidentalis. Soft blue flowers. A smaller form of *T. virginiana*. 14 in. Summer. N. A.25

virginiana. An old garden favorite. Blue flowers. Summer. 2 ft. N. A. .25

virginiana alba. Slightly dwarfer in height than *T. virginiana*. Large papery white flowers. Summer. N. A. 18 in.25

TROLLIUS

europaeus. Yellow globe flowers. A plant of the Alpine meadows. .. .25

ledebouri Golden Queen. *New.* Border form of great beauty. Golden flowers about 4 in. across. Extremely floriferous. Summer-autumn. .50

pumilus var. yunnanensis. Finely cut foliage. Large flat golden flowers. 2 ft.50

sinensis. Border type. Tall variety with golden flowers. China.35

TUNICA

Saxifraga. A dainty tufted plant with light pink flowers. Summer. 6 in. .25

Saxifraga fl. pl. A double flowering form of the above. Flowers resemble tiny pink roses. Summer.35

ULEX

europaeus. Spiny shrub with fragrant yellow flowers in late summer. Europe. Scarce.35

europaeus nanus. Dwarf form of the above.40

UMBELLICUS chrysanthus. Masses of pale green rosettes. Stars of yellow rayed with red.25

VACCINIUM Vitis-idaea. Tiny evergreen shrub. Racemes of waxy pink flowers followed by crimson berries. Spring. Europe. 1.00

VERBENA

alpina. A semi-procumbent plant of rather compact habit. Heads of pale pink flowers. Summer and autumn.35
hastata. Soft mauve flowers on 12 in. stems. Summer.35
peruviana. *New.* Pretty trailing form with brilliant red flowers. Tender.35
tenera maonetti. A trailing plant of outstanding beauty with striking wine colored flowers flecked with white. Always in demand.35
venosa. Lavender flowers on 8 in. stems. Summer and autumn.35
venosa lilacina. *New.* A new variety of great beauty with lavender-blue flowers. All summer. 12 in.40

VERONICA

amethystina. Fine border plant with charming blue flowers. Long season. Asia.25
Chamaedrys. Racemes of bright blue flowers. 18 in.35
Cinerea. *New.* Silvery trailer. Short spires of pinky-mauve flowers. 4 in. Greece.40
corymbosa nana. *New.* Distinct dwarf. Late flowering form with corymbs of amethyst blossoms.35
filiformis. Mats of daintiest apple green covered in spring with tiny orchid-like mauve flowers. Excellent ground cover in shade or sun. Will grow in places where it is difficult to raise grass.25
gentianoides. A handsome plant for the border or large rock garden. Spires of pale blue flowers in spring.25
incana. Silvery grey foliage. Sapphire blue flowers. 6 in.25
linifolia. *New.* Multi-colored, dainty flowers of blue, white or pink. .35
pectinata. Rare form. Mats of velvety-grey. Short spikes of pale blue flowers. Asia Minor. Beautiful edging plant.35
pectinata rosea. Trailer. Downy grey foliage. Bright pink blossoms. Excellent for sunny places.35
prostrata nana. A tiny close-growing species. Brilliant blue flowers. Good paving plant.35
quateriana. Fine form with beautiful blue flowers.35
repens. Pretty green carpets. Pale blue flowers. Corsica. Spring. . . .25
rupestris Heavenly Blue. Invaluable mat forming plant with myriads of intense blue flowers.30
rupestris nana. A smaller form with masses of blue flowers.25
rupestris rosea. Trailing plant. Spires of soft pink flowers. 4 in. . . .35
satureioides. Trailing mountain species. Dark leathery foliage. Generous heads of blue flowers. Long blooming period. Dalmatia. . .35
saxatilis. Spreading habit. Blue flowers with ring of red. Spring and early summer. Greenland.25
spicata. English variety. Dark green foliage and spikes of sapphire blue flowers. Summer. 10 in.25
spicata nana. A favorite rock plant. Very dwarf habit. Bright blue flowers. Choice. 4 in.35
spicata nana alba. White flowering form of the above.35

	each
Teucrium rosea. Fine rosy flowers. Lovely rock plant.35
Teucrium Royal Blue. Dwarf bushy habit. Bright blue flowers. Excellent rock plant.25
Teucrium Trehanii. An unusual and very engaging plant with bright golden leaves and spikes of sapphire blue flowers. A pleasing contrast with the yellow foliage. 5 in.35
VIOLA	
admiration. Rich purple flowers. Profuse bloomer.25
adunca. Bright blue flowers. 4 in. Spring-fall. N. A. Species.35
apricot. Compact and free flowering. Beautiful apricot flowers.25
blanda. Close-growing habit. Sweet scented white flowers with blue eye. Spring. N. A. Species.35
bosniaca. Small matted foliage covered all spring and summer with brilliant rosy mauve blossoms of unusual charm.35
cornuta Cyclops. Brilliant violet flowers with white eye. 6 in.25

JOIN THE AMERICAN ROCK GARDEN SOCIETY

Practical information on the subject of rock gardening.

Three classes of membership: Active, \$3.50 annually; Sustaining, \$10.00 annually; Life \$100.00. All members receive monthly the *Gardeners' Chronicle*, which is the official organ, and all other publications which the Society may issue from time to time. Checks drawn to the order of the Society may be sent to the Secretary, Dorothy Ebel Hansell, 1270 Sixth Avenue, Room 1004, New York, N. Y. Mrs. Hansell will gladly send to prospective members, a full list of the officers and a copy of the Constitution.

IMPORTANT PERIODICALS FOR THE ROCK GARDENER

THE AMERICAN HORTICULTURAL SOCIETY

Publishes for its members a quarterly magazine in which are many articles and pictures of plants that should be known to all rock gardeners. You are cordially invited to join by sending your check for \$3.00 to the Secretary, Mr. C. C. Thomas, 211 Spruce Street, Takoma Park, D. C.

GARDENERS' CHRONICLE OF AMERICA

Reliable information on all phases of gardening, with special emphasis in each issue on rock gardening. Subscription \$2.00 a year.

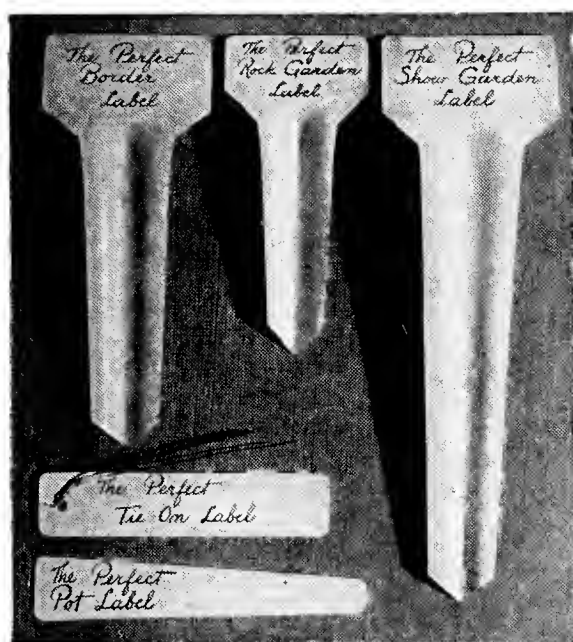

GARDEN DIGEST

We have for several years highly recommended *Garden Digest* to our customers. It is one of the most useful and interesting magazines. It is pocket size. Just enclose a dollar bill to us or add one dollar to your order and we will see that *Garden Digest* is sent to you monthly for a whole year.

HORTICULTURE

Published semi-monthly at Horticultural Hall, Boston, Mass. Subscription rate—one year, in advance \$1.00.

We recommend "**PIONEERING WITH WILD FLOWERS**" by George D. Aiken as being a splendid book for those interested in wild flowers. We will send this book postpaid for \$2.50.

THE PERFECT GARDEN LABEL

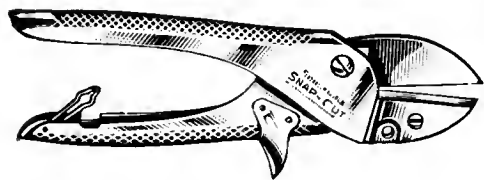

Ordinary lead pencil markings on these labels are permanent. The material is indestructible. The beautiful gray-green color blends perfectly with foliage, soil and rocks. They should be set deep in the soil with only the marking space showing. Thus they are inconspicuous.

Tie-On labels are supplied with copper wires in convenient bundles ready bent for attaching.

PRICES

	12	25	100	500
Perfect Border Label (5")	\$1.00	\$2.00	\$7.75	\$37.50

Perfect Pot Label (3/4" x 4", tapered)			2.00	12.50

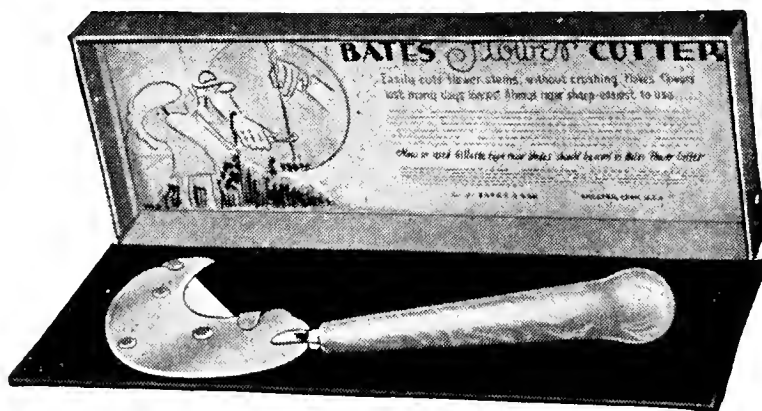

"SNAP-CUT" PRUNERS

The finest and easiest cutting pruning shears. Light weight and strong, with chrome finish. Improved model with new spring "one-hand" catch. 6 in. size. **\$1.35 each**

BATES FLOWER CUTTER

The best all round flower cutter. Practical and efficient. Sturdily made from rust proof, stainless steel. **\$1.00 each.**

Clematis Henryi

No heart within the rock, you say?
When natures' garlands them adorn,
Where beauty sings from early morn,
And rainbows—brighten all the day.
